Dead Center Nancy Sheehan,1991-08 **Mystery Women, Volume Three (Revised)** Colleen Barnett,2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of Mystery Women as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008 **Ancient Mysteries** Peter James,Nick Thorpe,2007-12-18 What was the Minotaur Did a Welsh prince discover America Did Robin Hood really exist How does the Star of Bethlehem fit into the science of astronomy Is the Vinland Map a fake Can archaeologists use spirit messages to guide their work For centuries philosophers scientists and charlatans have attempted to decipher the baffling mysteries of our past from the Stonehenge to the lost continent of Atlantis Today however DNA testing radiocarbon dating and other cutting edge investigative tools together with a healthy dose of common sense are guiding us closer to the truth Peter James and Nick Thorpe the professional historian and archaeologist team who created the acclaimed Ancient Inventions now tackle these age old conundrums presenting the latest information from the scientific community and the most startling challenges to traditional explanations of mysteries such as The rise and fall of the Maya A lost cache of Dead Sea Scrolls The curse of Tutankhamun The devastation of Sodom and Gomorrah The Nazca Lines These true mystery stories twist and turn like a good whodunit as James and Thorpe present the evidence for and against the expert theories shedding new light on humankind s age old struggle to make sense of the past The authors also make dramatic contributions of their own to the fray demonstrating persuasively that catastrophic events including the collisions of comets with the Earth long ago could explain puzzles that have baffled experts for centuries Ancient Mysteries will entertain and enlighten delight the curious and inform the serious [The Mystery of the Grail](#) Julius Evola,2018-07-13 In this important study of the meaning of the Grail one of Europe s greatest esoteric philosophers discloses

the pre Christian and initiatic sources of this symbolic motif that is so central to Western mythology and culture He demonstrates how the main features of the legend are from an older tradition analogous to the great heroic sagas and cycles of the North and that the Grail itself is a symbol of initiation Evola uncovers the hidden meaning in the often surreal adventures of the knights who searched for the Grail interpreting them as inner experiences and tests for the seeker He also explores the history of the myth in the Middle Ages its use by the Knights Templar and the Cathars its legacy during the decline of the Holy Roman Empire and its links with Rosicrucianism alchemy and Masonry This excursion into the realm of the Grail throws new light on an endlessly fascinating subject
