Film, Folklore and Urban Legends Mikel J. Koven, 2008 From *Alien* to *When a Stranger Calls* many films are based on folklore or employ an urban legend element to propel the narrative But once those traditional aspects have been identified do they warrant further scrutiny Indeed why is the study of folklore in popular film important In *Films Folklore and Urban Legends* Mikel J Koven addresses this issue by exploring the convergence of folklore with popular cinema studies Well beyond the identification of traditional motifs in popular cinema Koven reveals new paradigms of filmic analysis which open up when one looks at movies through the lens of folklore In particular this book focuses on the study of urban legends and how these narratives are used as inspiration for a number of films Divided into five sections the book begins with a general survey of the existing literature on folklore film predominantly from the perspective of folklore studies Subsequent chapters address discourses of belief how urban legends provide the organizing principle of some films and how certain films act out or perform a legend Movies discussed in this book include *Alligator* *Candyman* *The Curve* *Dead Man on Campus* *I Know What You Did Last Summer* *Urban Legend* *Weekend at Bernie's* and *The Wicker Man* as well as zombie films killer bee movies and slasher films including *Halloween* *Black Christmas* *The Burning* and *Terror Train* Koven also devotes attention to key television shows such as *The X Files* and *Most Haunted* In his analysis Koven explains not only how film and television narratives are built upon already existing popular culture beliefs but also how films and television shows recycle those beliefs back into popular culture Taken as a whole *Film Folklore and Urban Legends* both stands on its own as the first book length study of folklore and popular cinema and as an introductory textbook for the study of folklore and film
