philosophy business theory and more to explore the meaning and significance of the music of the Grateful Dead the implications of their artistic and commercial success and the social dimensions of their following the Deadheads For scholars and students of American history and culture this book makes a convincing case for why the Grateful Dead phenomenon is worthy of academic attention and what that study can offer By focusing a wide array of critical approaches on a single discrete subject All Graceful Instruments provides a refreshing approach to interdisciplinary studies that should appeal to a wide audience *DeadBase VII* ,1992 Grateful Dead's Workingman's Dead Buzz Poole,2016-04-21 Released in 1970 Workingman s Dead was the breakthrough album for the Grateful Dead a cold water shock departure from the Acid Test madness of the late 60s It was the band s most commercially and critically successful release to date More importantly these songs established the blueprint for how the Dead would maintain and build upon a community held together by the core motivation of rejecting the status quo the straight life in order to live and work on their own terms As a unified whole the album s eight songs serve as points of entry into a fully rendered portrait of the Grateful Dead within the context of late twentieth century American history These songs speak to the attendant cultural and political anxieties that resulted from the idealism of the 60s giving way to the uncomfortable realities of the 70s and the band s evolving perspective on these changes Based on research interviews and personal experience this book probes the paradox at the heart of the band s appeal the Grateful Dead were about much more than music though they were really just about the music DeadBase Nine John W.
