State Violence and Legal Accountability Ceylan Begüm Yıldız, 2025-02-18 This book pursues a critical perspective on the phenomenon of state violence and its legal unaccountability Focusing on the role of myths assumptions and ghosts that surround the meaning of the state and performance of state violence this book details a fresh perspective on that violence and its legal unaccountability It asks How does our understanding of the state reflect on the political demands and legal processes of accountability To pursue this question the book traces the political and legal aftermath of the police killing of a 14 year old boy Berkin Elvan during the nationwide Gezi protests of the summer of 2013 in Turkey Countering imaginaries of the state clash between the state officer's attempt to attribute personal responsibility to

Elvan for his own death and public demands for state accountability Meanwhile the prolonged legal process ensures that subjects who seek accountability find themselves in a long and exhausting legal battle which dominates their lives and transforms their subjectivity As the Elvan family continues to wait for accountability and justice this book suggests that waiting and suspense are key elements of legal performance in trials concerning state violence As such and unlike the usual reading of legal violence which focuses on judgement the book explores how this violence and its implications for an understanding of justice and accountability is bound to the very act of waiting This critical interdisciplinary study of state violence and its legal handling will appeal to scholars and students from a wider range of disciplines including law
