Deadly Dreams Opium And The Arrow War 1856 1860 In China

Li Chen

Deadly Dreams Opium And The Arrow War 1856 1860 In China:

Deadly Dreams J. Y. Wong, 2002-11-07 Wong argues that the opium trade played a large causative role in the Anglo Chinese Arrow War *Chinese Law in Imperial Eyes* Li Chen, 2015-12-22 How did American schoolchildren French philosophers Russian Sinologists Dutch merchants and British lawyers imagine China and Chinese law What happened when agents of presumably dominant Western empires had to endure the humiliations and anxieties of maintaining a profitable but precarious relationship with China In *Chinese Law in Imperial Eyes* Li Chen provides a richly textured analysis of these related issues and their intersection with law culture and politics in the eighteenth and nineteenth centuries Using a wide array of sources Chen's study focuses on the power dynamics of Sino Western relations during the formative century before the First Opium War 1839 1842 He highlights the centrality of law to modern imperial ideology and politics and brings new insight to the origins of comparative Chinese law in the West the First Opium War and foreign extraterritoriality in China The shifting balance of economic and political power formed and transformed knowledge of China and Chinese law in different contact zones Chen argues that recovering the variegated and contradictory roles of Chinese law in Western modernization helps provincialize the subsequent Euro Americentric discourse of global modernity Chen draws attention to important yet underanalyzed sites in which imperial sovereignty national identity cultural tradition or international law and order were defined and restructured His valuable case studies show how constructed differences between societies were hardened into cultural or racial boundaries and then politicized to rationalize international conflicts and hierarchy *Professional Journal of the United States Army*, 1999 **Military Review**, 2001 **A Modern History of Hong Kong** Steve Tsang, 2007-07-30 This major history of Hong Kong tells the remarkable story of how a cluster of remote fishing villages grew into an icon of capitalism The story began in 1842 with the founding of the Crown Colony after the First Anglo Chinese war the original Opium War As premier power in Europe and an expansionist empire Britain first created in Hong Kong a major naval station and the principal base to open the Celestial Chinese Empire to trade Working in parallel with the locals the British built it up to become a focus for investment in the region and an international centre with global shipping banking and financial interests Yet by far the most momentous change in the history of this prosperous capitalist colony was its return in 1997 to Mother China the most powerful Communist state in the world War and Drugs Dessa K. Bergen-Cico, 2015-11-17 *War and Drugs* explores the relationship between military incursions and substance use and abuse throughout history For centuries drugs have been used to weaken enemies stimulate troops to fight and quell post war trauma They have also served as a source of funding for clandestine military and paramilitary activity In addition to offering detailed geopolitical perspectives this book explores the intergenerational trauma that follows military conflict and the rising tide of substance abuse among veterans especially from the Vietnam and Iraq Afghan eras Addiction specialist Bergen Cico raises important questions about the past and challenges us to consider new approaches in the future to this longest of US wars **Palmerston** David

Brown, Professor of Modern History David Brown, 2011-02-01 A grand and fascinating figure in Victorian politics the charismatic Lord Palmerston 1784-1865 served as foreign secretary for fifteen years and prime minister for nine engaged in struggles with everyone from the Duke of Wellington to Lord John Russell to Queen Victoria and Prince Albert engineered the defeat of the Russians in the Crimean War and played a major role in the development of liberalism and the Liberal Party This comprehensive biography informed by unprecedented research in the statesman's personal archives gives full weight not only to Palmerston's foreign policy achievements but also to his domestic political activity political thought life as a landlord and private life and affairs Through the lens of the milieu of his times the book pinpoints for the first time the nature and extent of Palmerston's contributions to the making of modern Britain **Opium and the Limits of Empire** David Anthony Bello, 2005 This book examines the Chinese opium crisis from the perspective of Qing prohibition efforts The author argues that opium prohibition and not the opium wars was genuinely imperial in scale and is hence much more representative of the actual drug problem faced by Qing administrators **History of Photography in China 1842-1860** Terry Bennett, Lindsey Stewart, 2009 This book is the first extensive survey of early Chinese photographers in any language It is profusely illustrated with more than 400 photographs many of which are published here for the first time including a fine selection of Foochow landscapes from the studios of Lai Fong China's leading photographer during this period and Tung Hing Early chapters introduce the historical milieu from which the earliest Chinese photographers emerged and illuminate the beginnings of photography in China and contemporary Chinese reactions to its introduction Early Chinese commercial photography both portrait and landscape are also discussed with reference to similar genres in a more international context Individual chapters are devoted to Chinese photographers in Peking Hong Kong Canton Shanghai Foochow Amoy Hankow Tientsin and other ports Macau and Formosa These are followed by a series of appendices writings on photography in China by John Thomson and Isaac Taylor Headland and an invaluable guide to the identification of photographs from the Afong Studio It concludes with an extensive bibliography general and regional chronologies and a biographical index Publisher's note **Alimentary Orientalism** Yin Yuan, 2023-06-16 What exactly did tea sugar and opium mean in eighteenth and nineteenth century Britain Alimentary Orientalism reassesses the politics of Orientalist representation by examining the contentious debates surrounding these exotic recently popularized and literally consumable things It suggests that the interwoven discourses sparked by these commodities transformed the period's literary Orientalism and created surprisingly self-reflexive ways through which British writers encountered and imagined cultural otherness Tracing exotic ingestion as a motif across a range of authors and genres this book considers how why and whither writers used scenes of eating drinking and smoking to diagnose and interrogate their own solipsistic constructions of the Orient As national and cultural boundaries became increasingly porous such self-reflexive inquiries into the nature and role of otherness provided an unexpected avenue for British imperial subjectivity to emerge and coalesce *China Review International*, 1999 Cumulative Bibliography of

Victorian Studies ,2000 *Cumulated Index to the Books* ,1999 **Forthcoming Books** Rose Arny,1998-04 **Reactive Nationalism & Its Prospects for Conflict** Michael Alan Brittingham,2005 International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences ,2000 **The Journal of Military History** ,1998 Includes scholarly articles and book reviews on topics in military history **American Journal of Chinese Studies** ,2005 **A Century of Travels in China** Douglas Kerr,Julia Kuehn,2007 Writings of travelers have shaped ideas about an evolving China while preconceived ideas about China also shaped the way they saw the country A Century of Travels in China explores the impressions of these writers on various themes from Chinese cities and landscapes to the work of Europeans abroad From the time of the first Opium War to the declaration of the People s Republic China s history has been one of extraordinary change and stubborn continuities At the same time the country has beguiled scared and puzzled people in the West The Victorian public admired and imitated Chinese fashions in furniture and design gardens and clothing while maintaining a generally negative idea of the Chinese empire as pagan backward and cruel In the first half of the twentieth century the fascination continued Most foreigners were aware that revolutionary changes were taking place in Chinese politics and society yet most still knew very little about the country But what about those few people from the English speaking world who had first hand experience of the place What did they have to say about the real China To answer this question we have to turn to the travel accounts and memoirs of people who went to see for themselves during China s most traumatic century While this book represents the work of expert scholars it is also accessible to non specialists with an interest in travel writing and China and care has been taken to explain the critical terms and ideas deployed in the essays from recent scholarship of the travel genre **Encyclopedia of Western Colonialism Since 1450: F-O** Thomas Benjamin,2007 Provides students and researchers with a much needed comprehensive resource on the subject of colonialism and expansion From a global perspective the set traces many facets of colonial growth and imperialism and much more

Delve into the emotional tapestry woven by in Experience **Deadly Dreams Opium And The Arrow War 1856 1860 In China** .
