Deadly Element The Story Of Uranium:

The Deadly Element Lennard Bickel, 1979 **Creations Of Fire** Cathy Cobb, Harold Goldwhite, 2009-04-27 In this fascinating history Cathy Cobb and Harold Goldwhite celebrate not only chemistry's theories and breakthroughs but also the provocative times and personalities that shaped this amazing science and brought it to life Throughout the book the reader will meet the hedonists and swindlers monks and heretics and men and women laboring in garages and over kitchen sinks who expanded our understanding of the elements and discovered such new substances as plastic rubber and aspirin Creations of Fire expands our vision of the meaning of chemistry and reveals the oddballs and academics who have helped shape our world

Hiroshima Andrew J. Rotter, 2008-02-28 The US decision to drop an atomic bomb on the Japanese city of Hiroshima on 6 August 1945 remains one of the most controversial events of the twentieth century However the controversy over the rights and wrongs of dropping the bomb has tended to obscure a number of fundamental and sobering truths about the development of this fearsome weapon The principle of killing thousands of enemy civilians from the air was already well established by 1945 and had been practised on numerous occasions by both sides during the Second World War Moreover the bomb dropped on Hiroshima was conceived and built by an international community of scientists not just by the Americans Other nations including Japan and Germany were also developing atomic bombs in the first half of the 1940s albeit haphazardly Indeed it is difficult to imagine any combatant nation foregoing the use of the bomb during the war had it been able to obtain one The international team of scientists organized by the Americans just got there first As this fascinating new history shows the bomb dropped by a US pilot that hot August morning in 1945 was in many ways the world's offspring in both a technological and a moral sense And it was the world that would have to face its consequences strategically diplomatically and culturally in the years ahead
