Virga,2025-08-22 In light of ongoing globalization and the post pandemic recovery period organizational innovativeness is becoming a strategic necessity for many organizations to survive and thrive in contemporary business environments In achieving innovativeness organizations have become reliant on the discretionary and non conformity extra role behaviors of their employees that go beyond employee role expectations Employee creativity and innovativeness represent two such behaviors deemed critical for organizational innovativeness Employee creativity can be viewed as the cognitive and behavioral processes applied when attempting to generate novel ideas and employee innovativeness as the processes applied

when attempting to implement new ideas A particular challenge for organizations is understanding how behaviors emerge and how they can be sustained through appropriate structures and processes Such challenges are even more profound given that employees may not be willing to engage in such behaviors due to often significant personal costs associated with engaging in them Given the growing importance of employee creative and innovative behaviors to organizational success and survival numerous studies have examined their antecedents in order to develop theoretical models and evidence based guidance for enhancing employee creativity and innovativeness A fundamental issue among such studies is that they have mainly focused on specific elements of organizational cultures and or leadership styles This has often resulted in an incomplete understanding of how such complex behaviors actually emerge [The Architect's Handbook of Professional Practice](#) The American Institute of Architects,2003 Get the latest information on issues affecting your profession This annual update of the Handbook offers up to the minute tools and practical guidance that you can put to work in your practice today Included in this year s Practice Update is an overview of new AIA documents and sample contracts that you can view on a CD ROM included Seven new practice profiles demonstrate how firms of all sizes can increase their business and improve their profits by adding new practice methods and services such as Design Led Design Build to their portfolios The expanded practice topics section features seven new topics including proven techniques for improving client communications and four new services such as building security assessment that architects can provide So keep ahead of the curve and order your update right away
