Clusters of Innovation in the Age of Disruption Engel, Jerome S., 2022-07-21 This book is about innovation ecosystems Clusters of Innovation COI and the Global Networks of Clusters of Innovation GNCOI they naturally form What is innovation and why is it important to us Innovation is nothing less than the ability for constructive response and adaptation to change The cause and catalyst for that change is frequently identified as technology and its unceasing pressure to improve on existing solutions and address unmet needs The last decade has painfully demonstrated that exogenous environmental shocks are also sources of change that call for innovative responses ranging from the obvious challenges such as global warming and Covid 19 to the more subtle social and political perturbations of our time **Cyber Citizens** Heidi Boghosian, 2025-06-24 A grounding exploration of how our online prowess shapes the very essence of democracy The electronic age compels us to confront the delicate balance between the convenience of constant connectivity

and the protection of personal privacy security and democracy itself Presented as a two fold concern of digital and civic literacy surveillance and privacy expert Heidi Boghosian argues that our fight to uphold democracy must extend to the online world As smart citizens our best chance of thriving in the digital era lies in taking care of our smart selves as diligently as we maintain our smart devices In the same way that smart devices can disclose private information when not adequately secured our online presence can lead to unintentional data exposure or identity theft That entails a commitment to learning digital literacy and cyber hygiene from the first moment we engage with technology Mastering the fundamentals of civics the rights and responsibilities of citizens rounds out the democratic assignment With AI and machine learning poised to play a transformative role in our 21st century lives we as humans have our own generative learning journey to master Drawing parallels between Americans and their smart devices Cyber Citizens sheds light on the delicate balance between connectivity and privacy to uphold a truly democratic society
