E Quake Participants Guide:

Cert Basic Training Instructor's Guide Government Publishing Office, 2017-11-15 FEMA's Community Emergency Response Team CERT Basic Training Instructor Guide is a critical program in the effort to engage everyone in America in making their communities safer more prepared and more resilient when incidents occur Community based preparedness planning allows you and others interested from your community to prepare for and respond to anticipated disruptions and potential hazards following a disaster As individuals we can prepare our homes and families to cope during that critical period Through pre event planning neighborhoods and worksites can also work together to help reduce injuries loss of lives and property damage Neighborhood preparedness will enhance the ability of individuals and neighborhoods to reduce their emergency needs and to manage their existing resources until professional assistance becomes available The purpose of the CERT Basic Training is to provide you and others in your community who complete this course with the basic skills that they will need to respond to their community's immediate needs in the aftermath of a disaster when emergency services are not immediately available This course will be beneficial to individuals who desire the skills and knowledge required to prepare for and respond to a disaster Instructors for these community courses usually range from skilled fire and rescue instructors that have completed the CERT Train the Trainer course and are knowledgeable about the CERT model different types of hazards that present greatest risks for communities local building structures that may present greatest hazard in disaster events community's emergency operation plans and licensed Paramedics or Emergency Medical Technicians and nurses for providing hands on knowledge relating to disaster medical operations Related items FEMA's companion product CERT Basic Training Participant Manual can be found here <https://bookstore.gpo.gov/products/sku/027-002-00627-5> Emergency Management First Responders publications can be found here <https://bookstore.gpo.gov/catalog/security-defense-law-enforcement/emerg> Audience As each CERT is organized and trained in accordance with standard operating procedures developed by the sponsoring agency its members select an Incident Commander Team Leader IC TL and an alternate and identify a meeting location or staging area to be used in the event of a disaster This publication is ideal for the chosen IC TL and members of the CERT may want to consult this manual to understand the responsibilities of the IC TL [Earthquake Response Plan and Field Guide](#), 1991 **Sailing Directions - Planning Guides** National Geospatial-intelligence Agency, 2006 **Grand Challenges in Earthquake Engineering Research** National Research Council, Division on Earth and Life Studies, Board on Earth Sciences and Resources, Committee on Seismology and Geodynamics, Committee for the Workshop on Grand Challenges in Earthquake Engineering Research—"A Vision for NEES Experimental Facilities and Cyberinfrastructure Tools, 2011-10-30 As geological threats become more imminent society must make a major commitment to increase the resilience of its communities infrastructure and citizens Recent earthquakes in Japan New Zealand Haiti and Chile provide stark reminders of the devastating impact major earthquakes have on the lives and economic stability of

millions of people worldwide The events in Haiti continue to show that poor planning and governance lead to long term chaos while nations like Chile demonstrate steady recovery due to modern earthquake planning and proper construction and mitigation activities At the request of the National Science Foundation the National Research Council hosted a two day workshop to give members of the community an opportunity to identify Grand Challenges for earthquake engineering research that are needed to achieve an earthquake resilient society as well as to describe networks of earthquake engineering experimental capabilities and cyberinfrastructure tools that could continue to address ongoing areas of concern Grand Challenges in Earthquake Engineering Research A Community Workshop Report explores the priorities and problems regions face in reducing consequent damage and spurring technological preparedness advances Over the course of the Grand Challenges in Earthquake Engineering Research workshop 13 grand challenge problems emerged and were summarized in terms of five overarching themes including community resilience framework decision making simulation mitigation and design tools Participants suggested 14 experimental facilities and cyberinfrastructure tools that would be needed to carry out testing observations and simulations and to analyze the results The report also reviews progressive steps that have been made in research and development and considers what factors will accelerate transformative solutions
