*Instagram Secrets* Alexander Vinci, 2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform If you just starting reading through this guide and are thinking that your business isn't an eCommerce business and so Instagram isn't the place for you think again Remember the key proposition that Instagram brings is visualization Consider these examples 1 You're a real estate agent and want to highlight the newest mountain home that you have on the market 2 You are a world class hospital that just released a new mother's ward with beautiful birthing and stay suites with a spa like feel 3 You're a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online but the business is building brand awareness and drumming up interest so that the consumer will visit their website or pick up the phone to learn more The mysterious Instagram algorithm While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts They'll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve

content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform For businesses that want to enable the Shopping capability they need to meet the following requirements You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company's registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing we will not be providing a deep dive of the Instagram Shopping capability Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book

*Social Media and Personal Branding* Charles Edwards, 2020-10-21 Branding is not just an age old practice that businesses continue to use just because it is commonplace Now more than ever branding is essential as there are more choices out there for your potential customers than ever before Your personal brand is more than a logo or a style guide for marketing efforts It can be thought of as everything that differentiates your social media presence from the competition as a good brand influences every aspect of your customer's experience A good brand can generate significant additional awareness while a bad one can ruin you regardless of the quality of whatever it is you ultimately produce The best way to make your brand stand out these days is through social media and will discuss everything you need to do in order to get started successfully First you will learn the basics of branding and the things you need to consider before getting started to ensure the best results Next you will learn about the new trends that are going to shape 2020 from start to finish With the basics out of the way you will then learn about the things to keep in mind when creating your brand to ensure that you stand out from the crowd You will then learn how to create an offer that is irresistible as well as find tips for staying on brand regardless if you are using Facebook Instagram or YouTube Finally you will find tips for finding and keeping a mentor that is worth the trouble and how to keep tabs on your brand once things are running smoothly This book covers the following topics Information on Social Media and Personal Branding Give you the Correct Mindset for Social Media and Personal Branding How to Choose your Niche and your Audience How to Grow your Audience and Content Strategies Info on how to grow your Network And much more The goal of every business is to be the first choice for their target audience bar none and managing and building a brand is a major step in making that happen While the first thing that most people think of when it

comes to branding are the things that were listed off the concept of the brand actually extends beyond that to things like the core values of your business and even peaks through in every interaction you have with suppliers and customers so much so that it reflects the reputation of your organization. It isn't just customers that build up an emotional attachment to specific brands; either employees of certain companies are well known for being overly committed to their corporate overlords, making it possible for strong loyalties to rise to the point that they even come with a sense of ownership as well. This can be an effective tool when it comes to increasing sales as well as maintaining employee motivation. It can also cause problems as your company grows, however, if those who feel they are stakeholders do not feel they were properly consulted when it came to planning out the future of the company. Anyways, I can go on and on talking about Social Media and Personal Branding, but it is best if you learn for yourself by buying this book. Learn with us so that we can help you with your problem. Let's get started.
