Charles T. Kurzman

Dynamics Of The Iranian Revolution:

Dynamics of the Iranian Revolution Jahangir Amuzegar, 1991-09-27 Going back to the turn of the century this book offers a cogent analysis and an objective assessment of the origins and dimensions of the 1979 Iranian Revolution. It reassesses the narrowly focused post revolution explanations as it traces the fate of the Pahlavi dynasty to deep rooted and structural weaknesses and contradictions in Iranian society, economy and politics. This critical examination leaves the reader with a deeper understanding of Iran's modern history and an appreciation for the interplay of forces currently at work within the Islamic Republic. It also provides persuasive commentary on the inherent plight of other Third World countries plagued with similar legacies and pre revolutionary conditions. *Iran Since the Revolution* Barry Rosen, 1985 *US Foreign Policy and the Iranian Revolution* C. Emery, 2013-10-15 This book provides a fresh perspective on the origins of the confrontation between the US and Iran. It demonstrates that contrary to the claims of Iran's leaders, there was no instinctive American hostility towards the Revolution and explains why many assumptions guiding US policy were inappropriate for dealing with the new reality in Iran. *Text and Trauma* Ian Richard Netton, 2012-12-06 An essay in literary criticism with a difference addressing the nature of blasphemy and using selected novels by Salman Rushdie, Najib Mahfuz and Nikos Kazantzakis as case studies.

Foucault and the Iranian Revolution Janet Afary, Kevin B. Anderson, 2010-07-15 In 1978 as the protests against the Shah of Iran reached their zenith, philosopher Michel Foucault was working as a special correspondent for *Corriere della Sera* and *le Nouvel Observateur*. During his little known stint as a journalist, Foucault traveled to Iran, met with leaders like Ayatollah Khomeini and wrote a series of articles on the revolution. *Foucault and the Iranian Revolution* is the first book length analysis of these essays on Iran, the majority of which have never before appeared in English. Accompanying the analysis are annotated translations of the Iran writings in their entirety and the at times blistering responses from such contemporaneous critics as Middle East scholar Maxime Rodinson as well as comments on the revolution by feminist philosopher Simone de Beauvoir. In this important and controversial account, Janet Afary and Kevin B. Anderson illuminate Foucault's support of the Islamist movement. They also show how Foucault's experiences in Iran contributed to a turning point in his thought, influencing his ideas on the Enlightenment, homosexuality and his search for political spirituality. *Foucault and the Iranian Revolution* informs current discussion on the divisions that have reemerged among Western intellectuals over the response to radical Islamism after September 11. Foucault's provocative writings are thus essential for understanding the history and the future of the West's relationship with Iran and more generally to political Islam. In their examination of these journalistic pieces, Afary and Anderson offer a surprising glimpse into the mind of a celebrated thinker.

Structure and Agency in the Iranian Revolution of 1979 Charles T. Kurzman, 1992 **The Iranian Revolution Turns Thirty** Nasrin Rahimieh, Behrooz Ghamari-Tabrizi, Mansour Bonakdarian, Ervand Abrahamian, 2009 This special issue of *Radical History Review* marks the thirtieth anniversary of the Iranian revolution, an event that reverberated across the

globe causing rifts and realignments in international relations as well as radical changes in Iranian political social and cultural institutions The Iranian revolution of 1979 was a historical inevitability neither in its inception nor in its outcome however its continued domestic and global significance often misunderstood and misinterpreted remains indisputable The issue explores the complex and evolving nature of the postrevolutionary dynamics in Iran and calls for renewed reflection on the roots of the revolution the processes leading to its proponents victory and its impact on the Muslim world and the global balance of power The articles in this interdisciplinary issue take up the legacy of the revolution within and outside the borders of Iran and offer critical evaluation and new insights into the transformations that Iran experienced as a result of the revolution One essay discusses the role of the crowd in the revolution while another traces the genealogy of the discourse of anti Zionism in Iranian circles Other articles explore the treatment of the revolution in the Egyptian press and illustrate how the trauma of the revolution is portrayed in diasporic Iranian women s biographies The issue also features a Reflections section which includes eight short essays that provide snapshots of postrevolutionary politics economics literature cinema and visual arts demonstrating both radical changes and continuities in Iranian society

Class, Politics, and Ideology in the Iranian Revolution Mansoor Moaddel, 1993 Thirteen years after the Shah of Iran was swept away in a tide of revolutionary fervor the cruelty and brutality of the new regime remains shocking In *Class Politics and Ideology in the Iranian Revolution* Mansoor Moaddel provides the theoretical underpinnings for a richer and clearer understanding of Iran s tumultuous recent history Analyzing the causes and processes of the revolution through the prisms of class politics and ideology Moaddel argues that the currently dominant theories of revolution insufficiently address the requisite question of ideology Ideology is not simply another factor that adds an increment to the causes of revolution Ideology is the constitutive feature of revolution Moaddel explains how revolutionary conditions in Iran were created by a combination of state economic policies favoring international capital which enraged segments of the powerful bourgeoisie and fluctuations in the world economy that financially weakened Iran But the central element of the revolutionary crisis of the late 1970s was the development of Shi i revolutionary discourse as the dominant ideology As liberalism and communism declined the potent discourse of revolutionary Islam with its martyrdom its religious rituals its symbolic structures formed a powerful conduit for popular mobilization Karl Marx likened the French Revolution to a gigantic broom which swept away all the medieval rubbish Drawing from his abundant theoretical historical and sociological knowledge Moaddel illuminates the process by which the gigantic broom of the Iranian Revolution swept all the medieval rubbish back in

Creating an Islamic State Vanessa Martin, 2003-03-28 How did the Ayatollah Khomeini create his Islamic state What were the ideas which drove him and his movement What organization and methods helped bring him to power This book analyses the ideological roots of an Islamic state as conceived by the Ayatollah Khomeini Surprisingly the author finds much of the inspiration behind Khomeini s political thinking being influenced by Western sources his writing on the supreme Islamic Jurist being affected by Plato s

notions of the philosopher king and his views of state power and centralism being closely linked to his understanding of Marxist Leninist totalitarianism Vanessa Martin considers the dynamics of the Iranian Revolution and the Islamist revival in a book which is especially relevant in the context of the debate arising out of Iran's elections

The State and Revolution in Iran (RLE Iran D) Hossein Bashiriyeh, 2012-04-27 This book analyses the distant and proximate causes of the 1978 revolution in Iran as well as the dynamics of power which it set in motion The volume explains the complex and far reaching processes which produced the revolution beginning in the late nineteenth century In explaining the more proximate causes of the revolution the book analyses the nature of the old regime and its internal contradictions the emergence of some fundamental conflicts of interest between the state and the upper class the economic crisis of 1975-8 which made possible a revolutionary mass immobilisation and the emergence of a new religious interpretation of political authority and the unusual spread of the ideology of political Islam among a segment of the modern intelligentsia The volume relates the diverse aspects of class ideology and economic structure in order to provide an understanding of the political processes

From Zarathustra to Khomeini Manochehr Dorraj, 1990 Shedding new light on the sources and character of Iran's 1979 Revolution Manochehr Dorraj explores the genesis and development of popular movements and dissent in Iranian history Dorraj draws on Iran's pre-Islamic religious culture and on its legacy of Islamic folk heroes and the millenarian movements as well as on more recent history to illuminate current events His investigation of the peculiarities of Islam of populism and of Iranian social development is a major contribution to the ongoing debate regarding the essence of the Iranian revolution and more generally the political dynamics underlying social change in the Middle East

Class and Labor in Iran Farhad Nomani, Sohrab Behdad, 2006-06-19 In the past twenty five years Iran has experienced a revolution and a turbulent postrevolutionary period under an Islamic state that declared itself the government of the oppressed while it struggled to establish a utopian Islamic economy In this pioneering work Farhad Nomani and Sohrab Behdad provide a comprehensive analysis of the dynamics of change and class configuration in Iranian society Using an empirical framework they map the trajectory of class changes over time specifically noting the movements between prerevolutionary and postrevolutionary Iran A centerpiece of the book is its analysis of the changes in the pattern of employment of women in the postrevolutionary period Despite its conceptual and quantitative approach the book is written in a clear and lucid style making it accessible to a wide audience The authors provide a fresh look into Iranian society by exploring the changes in its essential underlying economic structure and in doing so they lay the foundation for comparative studies of the social hierarchy of labor in other Middle Eastern countries

Foucault and Power Marcelo Hoffman, 2013-11-21 Michel Foucault is one of the most preeminent theorists of power yet the relationship between his militant activities and his analysis of power remains unclear The book explores this relationship to explain the development of Foucault's thinking about power Using newly translated and unpublished materials it examines what led Foucault to take on the question of power in the early 1970s and

subsequently refine his thinking working through different models war and government and modalities disciplinary biopolitical and governmental Looking at Foucault's political trajectory from his immersion in the prisoner support movement to his engagements with the Iranian revolution and Solidarity in Poland the book shows the militant underpinning of his interest in the question of power and its various shifts and mutations This thorough account which includes the first translation of a report edited by Foucault on prison conditions will provide students in contemporary political theory with a better understanding of Foucault's thinking about power and of the interplay between political activities and theoretical productions Revolution in Iran Enver M. Koury, Charles G. MacDonald, 1982 **Writing the History of Modern**

Revolutions Gavin Murray-Miller, 2025-12-11 Writing the History of Modern Revolutions provides students with a comprehensive overview of the history of revolutions and how these histories have been framed debated and understood since the nineteenth century Beginning in the 19th century with historical accounts of the French Revolution the book traces how contemporary politics and new developments in the humanities and social sciences have shaped existing scholarship and analysis of revolutionary phenomenon Not only this but the book also offers a concise and synthetic account of how scholars have addressed contemporary critical political and social issues in a historical context which will be of value to both scholars across disciplines as well as students taking courses in political science sociology and modern history The book will provide students with a solid understanding of some of the most dramatic moments in modern history including Revolutions relevant to Europe the Americas Asia and the post colonial world It will encourage students to think critically about how the history of modern revolutions have been written and provide them with a thorough understanding of the approaches to revolution key works and scholars in the field as well as an understanding of the wider contexts in which these revolutions occurred

Defying the Iranian Revolution Manouchehr Ganji, 2002-09-30 Ganji who taught political science in Iran and served as education minister before going into exile following the revolution writes from first hand experience of the political events of his homeland He describes in detail the history and people involved in the rise of the religious right the subversive activities of Iranian fundamentalists in the Sudan and elsewhere and the efforts to promote human rights and religious freedoms under successive clerical rulers since the fall of the shah Annotation copyrighted by Book News Inc Portland OR Population Dynamics in the Revolutionary Process Homa Firouzbakhch, 1994 *On the Arab Revolts and the Iranian Revolution* Arshin Adib-Moghaddam, 2013-10-10 On the Arab Revolts and the Iranian Revolution Power and Resistance Today is the first comparative analysis of two central political events that have altered our world forever the Arab uprisings which started in Tunisia and the Iranian revolution in 1979 Adib Moghaddam demonstrates how contemporary forms of protest are changing our understanding about the way power and resistance function In a theoretical tour de force which is substantiated with a range of primary material he argues that acts of protest in Tehran to Cairo can be entirely linked to the same act in New York London Madrid and Athens Breaking through the east west north south divide Adib Moghaddam shows how the Arab revolts

promise to shift the discourse away from the idea that Arabs and Muslims are peculiar that Middle Eastern Studies cannot be linked to political theory that the dynamics of rebellion there are fundamentally different from the politics of revolt here Adib Moghaddam argues that the dialectics of power and resistance are truly universal and that they are unfolding within a globalised political context that is increasingly interconnected In order to illuminate this argument theoretically the study is organised around conceptual terms that feed into forms of power and resistance such as revolution radicalism dissent knowledge neighbour and reform These terms and concepts are discussed and deconstructed via an empirical discussion of pivotal events beyond the non western world demonstrating that for a long time and without realising it we have been living in the end times of unitary categories such as west and east
