Dynix A Guide For Librarians And Systems Managers:

Dynix Jacqueline Gilmartin, 2018-08-13 Published in 1992 Investing in running and managing an automated library system is an expensive time consuming activity This guide one of a series looking at library automation systems will not only help prospective users in their systems choice but will also give current users a better appreciation of the potential of their own system Written by users of the system and reflecting their experience the guide examines DYNIX s place in the automated libraries market the company history reliability and support services All the hardware and software used in connection with DYNIX are described and the reader is taken through all the processes involved in setting up the system and introduced to the specific packages and applications This guide will also be of interest to students of information management information science and librarianship **Dynix** Jacqueline Gilmartin, Anne Beavan, 1992 **British**

Librarianship and Information Work 1991-2000 J.H. Bowman, 2017-07-28 This important reference volume covers developments in almost every aspect of British library and information work during the ten year period 1991 2000 Some forty contributors all of whom are experts in their subject provide a robust overview of their specialities along with extensive further references which act as a starting point for further research The book provides a comprehensive record of what took place in library and information management during a decade of considerable change and challenges It is an essential reference resource for librarians and information professionals Library Information Technology and Networks Charles Grosch, 2020-07-24 Offers an historical perspective of the past 25 years of computers in libraries profiling currently available processing systems according to their size and platform The short and long term future of information technology in libraries College or university bookstores may order five or more copies at a special student price which is available from Marcel Dekker upon request Beyond the Search Engine Liese Zahabi, 2024-12-24 Focusing on the user experience of online search this book explores the complex design at play and the ways social media platforms websites and other online interfaces have been created to provide information Author Liese Zahabi addresses three key questions How do users perceive search engines and what is their understanding of how they work What are the various user interface designs contemporary and historical that have created access points to search and how do these interfaces affect each other and a user s search process What do these designs and products say about our priorities and our relationships with information and other people This book weaves archival and contemporary examples of interface designs together with the results of user research conducted by the author These user studies focus on how people utilize various platforms apps and interfaces in their quest for information answers and meaning Current research from the fields of user experience design interaction design and information design is integrated throughout to expand on these ideas and provide larger takeaways This book is crucial reading for advanced students scholars and professionals in the fields of design specifically user experience and interaction design media and cultural studies information science and design studies Education for Information , 1993
