Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. **Teaching And Learning In The**

**Digital Era: Issues And Studies** Jun Xu, 2024-03-04 This compendium looks at the current status and practices of teaching and learning facilitated/enabled by digital technologies, reviews challenges/issues associated with classroom teaching, online teaching, and hybrid learning, and discusses success factors and future directions of teaching and learning in the digital era. The book also provides a number of studies at different perspectives of using digital technologies for teaching and learning. This useful reference text benefits teaching staff or administrators at education institutions, especially higher education providers, to update their professional knowledge and skills. **Bloomsbury Curriculum Basics: Teaching Primary**

**Computing** Martin Burrett, 2024-08-22 The Bloomsbury Curriculum Basics series provides non-specialist primary school teachers with subject knowledge and full teaching programmes in a variety of key primary curriculum subjects. This is a revised and up-to-date hands-on guide to planning and delivering primary computing lessons in a fun and refreshing way. Updates include the following: Coding, New uses and capabilities of the program Scratch, Artificial Intelligence AI, and virtual reality including how to create art using AI and how to use ChatGPT. The teaching ideas are well structured, engaging, easy to implement, and use mostly free tools that operate across the many digital platforms that primary schools use while keeping in line with National Curriculum guidelines for KS1 and KS2. Each chapter offers practitioners an essential summary of all the information and vocabulary needed to successfully implement exciting computing lessons that will keep your class riveted.
