**Increase sales and lead generation with AI and chatbots** Krzysztof Wroblewski, 2023-07-10 To grow your ecommerce business, you need to gain more clients. And to achieve it, you have to provide high-quality customer experience. Sounds logical. But the more visitors on your website, the more questions your support agents have to handle. And here is the challenge you need to face to successfully grow your store: How to serve more clients, answer more questions, and

maintain the high quality of support at the same time There are two ways The first is to constantly hire new support agents It probably will work but the cost you'll have to take for constantly recruiting and training new employees will be huge The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time If not forever The AI      The AI Revolution in Customer Service and Support Ross Smith, Mayte Cubino, Emily McKeon, 2024-07-16 In the rapidly evolving AI landscape customer service and support professionals find themselves in a prime position to take advantage of this innovative technology to drive customer success The AI Revolution in Customer Service and Support is a practical guide for professionals who want to harness the power of generative AI within their organizations to create more powerful customer and employee experiences This book is designed to equip you with the knowledge and confidence to embrace the AI revolution and integrate the technology such as large language models LLMs machine learning predictive analytics and gamified learning into the customer experience Start your journey toward leveraging this technology effectively to optimize organizational productivity A portion of the book's proceeds will be donated to the nonprofit Future World Alliance dedicated to K-12 AI ethics education IN THIS BOOK YOU WILL LEARN About AI machine learning and data science How to develop an AI vision for your organization How and where to incorporate AI technology in your customer experience flow About new roles and responsibilities for your organization How to improve customer experience while optimizing productivity How to implement responsible AI practices How to strengthen your culture across all generations in the workplace How to address concerns and build strategies for reskilling and upskilling your people How to incorporate games play and other techniques to engage your agents with AI Explore thought experiments for the future of support in your organization Insightful comprehensive if you run a service support operation put this book on your essential reading list right now PHIL WOLFENDEN Cisco VP Customer Experience This book is both timely and relevant as we enter an unprecedented period in our industry and the broader world driven by Generative AI The magnitude and speed of change we're experiencing is astounding and this book does an outstanding job balancing technical knowledge with the people and ethical considerations we must also keep front of mind BRYAN BELMONT Microsoft Corporate VP Customer Service Support The authors of this book are undoubtedly on the front lines of operationalizing Gen AI implementations in customer support environments and they know undoubtedly that at its core support is about people and genuine human connections This book walks you through their journey to keep people at the center of this technical tsunami PHAEDRA BOINODIRIS Author AI for the Rest of Us      *AI Agents vs. AI Chatbots: A Strategic Guide for B2B Customer Service* Branislav Bozanic, 2025-04-01 In 2021 Uber was expanding at a staggering rate but growth came at a cost After pandemic related restrictions eased the multinational American transportation company faced severe driver shortages and regulatory hurdles that slowed the hiring of new drivers Wait times surged prices fluctuated and customer frustration grew One of the biggest bottlenecks was due to customer support The high volume of tickets coming in across multiple channels

required manual processing And therein lay their problem Even Uber couldn't keep up with all the customer support demands This resulted in slow response times inconsistent resolutions and high operational costs However their team didn't panic There was an obvious solution AI driven technologies More precisely an AI powered robotic process automation RPA system Uber quickly implemented RPA to categorize tickets and handle repetitive and time consuming customer support tasks The results Processing time for common issues dropped from days to minutes Customer satisfaction skyrocketed with faster response times Cost savings were massive with the company revenue growing from 17 to 32 billion US dollars the following year 1 Thanks to chatbots and now AI agents automating customer service is getting easier cheaper and more scalable These digital assistants can answer customer questions and automate simple tasks based on a specific set of data But only one of them can also make dynamic decisions plan actions and even learn from experiences offering unparalleled service Curious to know which one is the all around solution that is more suitable for the B2B ecosystem This ebook aims to demystify the differences between AI Agents and AI Chatbots provide their respective benefits and help businesses make the right choice according to their unique customer service requirements **Improve customer experience with chatbots**
