This opens up space for quick expansion and growth of social media presences, rapid growth, and practically endless marketing experimentation. What shows up in a user's feed is determined by an algorithm used by TikTok. Every video has a chance of going viral thanks to the intriguing manner that its discovery algorithm works. To attract interested audiences who are ready to buy your products, you can quickly and easily create a TikTok video promoting a product. The main distinction between TikTok and other social media platforms, particularly Facebook and Instagram, is that the homepages of the latter two are primarily made up of users and channels you already follow. You might be wondering why TikTok has been used to market things. TikTok operates in the opposite manner, giving new creator videos priority.
