*Cyber-Marx* Nick Dyer-Witheford,1999 In this highly readable and thought provoking work Nick Dyer Witheford assesses the relevance of Marxism in our time and demonstrates how the information age far from transcending the historic conflict between capital and its laboring subjects constitutes the latest battleground in their encounter [The Handbook of Media and Mass Communication Theory](#) Robert S. Fortner,P. Mark Fackler,2014-03-10 The Handbook of Media and Mass Communication Theory presents a comprehensive collection of original essays that focus on all aspects of current and classic theories and practices relating to media and mass communication Focuses on all aspects of current and classic theories and practices relating to media and mass communication Includes essays from a variety of global contexts from Asia and the Middle East to the Americas Gives niche theories new life in several essays that use them to illuminate their application in specific contexts Features coverage of a wide variety of theoretical perspectives Pays close attention to the use of theory in understanding new communication contexts such as social media 2 Volumes **New Frontiers in International Communication Theory** Mehdi Semati,2004-04-02 New Frontiers in International Communication Theory offers a wide ranging assessment of the present state of the field of international communication and charts new directions for theory and research It brings together renowned and emerging scholars who challenge the field to move beyond the limits of existing formulations approaches and trajectories providing an alternative and a supplement to traditional approaches in analysis and study In rethinking the central problematics of the field exploring established and new tools and models of inquiry and articulating new research agendas this interdisciplinary collection anticipates the future of international communication studies *The Internet Society II* Konrad Morgan,C. A. Brebbia,J. Michael Spector,2006 This book explores the technical social and cultural implications of the emerging Information and communication technologies addressing the technological and scientific development within education commerce governance and security with a special emphasis on the impact on individuals culture and society Bringing together papers from the Second International Conference on Advances in Education Commerce Data and Information Privacy Psychology Gender Culture New Learning **The Rest and the West** Sandro Mezzadra,Brett Neilson,2024-11-12 At the heart of the fiercest international conflicts is the struggle for the future of globalization In the wake of a pandemic that tested economies and societies geopolitical conflict has taken on a new intensity The Rest and the West locates the origins of this development in the turbulent dynamics of the capitalist world market Rather than reducing global conflict to a matter of great power rivalries or the process of economic decoupling Sandro Mezzadra and Brett Neilson investigate the increasing centrality of war to capital operations and to the transformation of capitalism The goal is to forge a theory of imperialism adequate to a world in which the rest no longer provides a putative unity that defines and opposes the West *Globalization and Labour in the Twenty-First Century* Verity Burgmann,2016-04-14 The Open Access version of this book available at <http://www.tandfebooks.com> has been made available under a Creative

Commons Attribution Non Commercial No Derivatives 3.0 license Globalization has adversely affected working class organization and mobilization increasing inequality by redistribution upwards from labour to capital However workers around the world are challenging their increased exploitation by globalizing corporations In developed countries many unions are transforming themselves to confront employer power in ways more appropriate to contemporary circumstances in developing countries militant new labour movements are emerging Drawing upon insights in anti determinist Marxian perspectives Verity Burgmann shows how working class resistance is not futile as protagonists of globalization often claim She identifies eight characteristics of globalization harmful to workers and describes and analyses how they have responded collectively to these problems since 1990 and especially this century With case studies from around the world including Greece since 2008 she pays particular attention to new types of labour movement organization and mobilization that are not simply defensive reactions but are offensive and innovative responses that compel corporations or political institutions to change Aging and less agile manifestations of the labour movement decline while new expressions of working class organization and mobilization arise to better battle with corporate globalization This book will be of interest to students and scholars of labour studies globalization political economy Marxism and sociology of work *Feminism, Labour and Digital Media* Kylie Jarrett, 2015-11-19 There is a contradiction at the heart of digital media We use commercial platforms to express our identity to build community and to engage politically At the same time our status updates tweets videos photographs and music files are free content for these sites We are also generating an almost endless supply of user data that can be mined repurposed and sold to advertisers As users of the commercial web we are socially and creatively engaged but also labourers exploited by the companies that provide our communication platforms How do we reconcile these contradictions *Feminism Labour and Digital Media* argues for using the work of Marxist feminist theorists about the role of domestic work in capitalism to explore these competing dynamics of consumer labour It uses the concept of the Digital Housewife to outline the relationship between the work we do online and the unpaid sphere of social reproduction It demonstrates how feminist perspectives expand our critique of consumer labour in digital media In doing so the Digital Housewife returns feminist inquiry from the margins and places it at the heart of critical digital media analysis **Beyond the Regulation Approach** Bob Jessop, Ngai-Ling Sum, 2006 This book presents a detailed and critical account of the regulation approach in institutional and evolutionary economics Offering both a theoretical commentary and a range of empirical examples it identifies the successes and failures of the regulation approach as an explanatory theory and proposes new guidelines for its further development Although closely identified with heterodox French economists there are several schools of regulation theory and the approach has also been linked to many topics across the social sciences Bob Jessop and Ngai Ling Sum provide detailed criticisms of the various schools of the regulation approach and their empirical application and have developed new ways of integrating it into a more general critical exploration of contemporary capitalism The authors go on to describe how the

regulation approach can be further developed as a progressive research paradigm in political economy Also presented is a detailed philosophical as well as theoretical critique of the regulation approach and its implications for the philosophy of social sciences and questions of historical analysis especially periodization Addressing the implications of the regulation approach for both the capitalist economy and the changing role of the state and governance this book will be of great interest to a wide ranging audience including institutional and evolutionary economists economic and political sociologists and social and political theorists

**Cyber-proletariat** Nick Dyer-Witheford, 2015 This book examines how technology facilitates growing polarisation between wealthy elites and precarious workers Nick Dyer Witheford reveals the class domination behind everything from expanding online surveillance to intensifying robotisation At the same time he explores the possibilities that information technology offers within radical movements recasting contemporary struggles in the blue glow of the computer screen

**Hidden Knowledge** D. W. Livingstone, Peter H. Sawchuk, 2004-01-05 Explodes the dual myths that working class adults have inferior learning capacities and that talented youths naturally leave blue collar careers and documents the genuine learning practices of working class people using accounts of prior school experiences current adult education course participation and a wide array of learning resources in paid workplaces households and community settings The authors criticize dominant theories of learning and work and develop an alternative explanation of working class adult learning

*Rewiring the "Nation"* Carolyn de la Peña, Siva Vaidhyanathan, 2007-04-30 This special bound issue of American Quarterly offers a re reading of the narrative of U S technologies as we move beyond celebrations of exceptional tinkerers and a deterministic machine driven sense of progress to a more complex understanding of the opportunities and responsibilities that befall a nation that interweaves its identities labors and creative cultures with its machines
