Wiseman, 2011-11-01 What do we really mean by phrases such as western Canadian political culture the centrist political culture of Ontario Red Toryism in the Maritimes or Prairie socialism What historical geographical and sociological factors came into play as these cultures were forged In this book Nelson Wiseman addresses many such questions offering new ways of conceiving Canadian political culture The most thorough review of the national political ethos written in a generation In Search of Canadian Political Culture offers a bottom up regional analysis that challenges how we think and write about Canada

Power Shift Vaughan Lyon, 2012-01-16 The Message of POWER SHIFT Fed up with politics as usual Most Canadians are They 83% want their MP to represent them and not a party in the House of Commons Political parties however do not consider reforms that would shift significant power from them to citizens Professor Lyon breaking the party silence speaks strongly in support of the interests of his fellow citizens Drawing on years of experience as a political activist and political scientist he shows both why and how the desire of Canadians for this new form of representation should be acted on now He does this by presenting readers with a detailed model of the new politics He argues that adopting the model would establish the close collaborative relationship of citizens their MPs cabinet and civil servants needed to strengthen the performance of government Professor Lyon urges politicians to respect the desire of citizens for fundamental change Party politics is he states 19th century politics and fails to meet the needs of today Citizen politics for the 21st century is what he proposes and he argues Canada stands on the cusp of making the change to them **Race, Racialization and Antiracism**

in Canada and Beyond Genevieve Fuji Johnson, Randy Enomoto, 2007-06-23 This multidisciplinary volume brings together scholars and activists to examine expressions of racism in contemporary policy areas including education labour immigration media and urban planning While anti racist struggles during the twentieth century were largely pitched against overt forms of racism e g pogroms genocide segregation apartheid and ethnic cleansing it has become increasingly apparent that there are other less visible forms of racism These subtler incarnations are of special interest to the contributors The intent of Race Racialization and Antiracism in Canada and Beyond is to probe systemic forms of racism as well as to suggest strategies for addressing them The collection is organized by themes pertinent to political and social expressions of racism in Canada and the wider world such as the state and its mediation of race education and the perpetuation of racist marginalization and the

role of the media The contributors argue that in order to effectively combat racism various methodological approaches are required approaches that are reflective of the diversity of the world we seek to understand Between Colliding Worlds Jonathan Malloy, Institute of Public Administration of Canada, 2003-01-01 Jonathan Malloy's Between Colliding Worlds examines the relationship between governments and external activists through a comparative study of policy units dedicated to aboriginal and women's issues in Australia and Canada Malloy identifies these units or special policy agencies as sitting on the boundary between the world of permanent public servants and that of collective social movements working for broad social and political change These agencies at once represent the interests of social movements to government while simultaneously managing relations with social movements on behalf of government and thus operate in a state of permanent ambiguity Malloy contends that rather than criticizing these agencies for their inherently contradictory nature we must reconsider them as effectively dealing with the delicate issue of bridging social movements with state politics In other words the very existence of these special policy agencies provides a forum for social movements and the state to work out their differences Relying heavily on interviews with public servants and external activists Malloy argues convincingly that special policy agencies despite or because of their ambiguous relationship to different communities make critical contributions to governance
