Doing Better Business Through Effective Public Consultation and Disclosure International Finance Corporation. Environment Division, 1998-01-01 The International Finance Corporation IFC the private sector arm of the World Bank Group represents the world's largest multilateral source of debt and equity financing of private sector projects in developing countries IFC recognizes that the private sector has specific characteristics and operates under certain constraints which at times make public consultation and disclosure particularly sensitive and complex This Good Practice Manual is therefore based upon practical experience from current IFC activities and from other examples of international good practice for public involvement and consultation in private sector projects The guidance presented in this manual is specifically tailored to assist companies working in developing and emerging economies Section A of the manual is intended for project participants and others interested in the importance of public consultation in project development and the expectations of IFC Section B focuses on managing the entire public consultation process and is geared towards project managers Section C has been written for line managers and those practitioners and consultants engaged in planning and implementing public consultation activities at various stages of the project

**Investing in People**, 2000 This guide is a resource to help International Finance Corporation IFC clients and other companies establish effective community development programs It defines general principles and methods disseminates good practice and refers readers to other resources to help them develop an appropriate community development program

The Environmental and Social Challenges of Private Sector Projects Ramamohan Mahidhara, 2002 This document represents collective learning from a large number of people and projects at IFC It is intended to share practical experience and to contribute to a better understanding of some of the environmental and social issues involved in private sector financing

Handbook for Preparing a Resettlement Action Plan, 2002 The goal of the International Finance Corporation is to promote sustainable development through private sector investment in developing countries in order to reduce poverty and improve people's lives IFC often supports investments that involve complex social and environmental issues and it takes these issues very seriously IFC recognizes that the resettlement of people from their homes or displacement of people from their livelihoods is economically and socially disruptive and may affect some people living close to the edge of survival Where resettlement is unavoidable each project requires its utmost attention IFC considers resettlement an opportunity to improve people's lives by providing sustainable benefits and improved means of livelihood to people affected by IFC financed projects This handbook outlines methods and practices for the preparation of successful resettlement action plans conforming to IFC's policy on involuntary resettlement As a reference for project developers it describes the issues associated with the economic and physical displacement of people and provides an appreciation of the level of effort a project will require It is intended primarily to assist the practitioners consultants NGOs and community based organizations that design and carry out resettlement activities The handbook may be used in

conjunction with IFC's public consultation Good Practice Manual and its Community Development Guide *Land Access and Resettlement* Gerry Reddy, Eddie Smyth, Michael Steyn, 2017-09-08 This book is an up to date accessible and practical guide on how to optimally plan for implement and review land access and resettlement It provides step by step information on how to avoid pitfalls ensure that best practice is being employed and the correct standards are being applied With useful real life examples of when projects have gone well and when they haven't the book is based on the main lessons that have been learned on the ground over the past decade Natural resource projects can have considerable impacts on local communities chiefly due to the need to acquire large areas of land When projects are located in developing and middle income economies the impacts are most keenly felt as it often requires displacement of large rural populations with predominately land based livelihoods The authors have planned implemented and reviewed over 50 land access and resettlement projects in over 30 countries internationally and conducted benchmarking exercises on a further 60 projects This experience provides the basis for the book The book guides the reader through the different stages of preparing for a land resettlement project Land Access and Resettlement is a key social risk for the natural resources sector particularly the mining oil and gas industries who are operating in a context of increased awareness and regulation regarding the potential social impacts of their activities At the same time companies increasingly appreciate the business case for getting social right This book provides a practical road map to corporate leaders project managers practitioners academia government and civil society for practically planning and implementing successful land access and resettlement and creating win win outcomes for companies and communities Mining and the Environment Karlheinz Spitz, John Trudinger, 2019-08-20 The history of mining is replete with controversy of which much is related to environmental damage and consequent community outrage Over recent decades this has led to increased pressure to improve the environmental and social performance of mining operations particularly in developing countries The industry has responded by embracing the ideals of sustainability and corporate social responsibility Mining and the Environment identifies and discusses the wide range of social and environmental issues pertaining to mining with particular reference to mining in developing countries from where many of the project examples and case studies have been selected Following an introductory overview of pressing issues the book illustrates how environmental and social impact assessment such as defined in The Equator Principles integrates with the mining lifecycle and how environmental and social management aims to eliminate the negative and accentuate the positive mining impacts Practical approaches are provided for managing issues ranging from land acquisition and resettlement of Indigenous peoples to the technical aspects of acid rock drainage and mine waste management Moreover thorough analyses of ways and means of sharing non transitory mining benefits with host communities are presented to allow mining to provide sustainable benefits for the affected communities This second edition of Mining and the Environment includes new chapters on Health Impact Assessment Biodiversity and Gender Issues all of which have become more important since the first edition

appeared a decade ago The wide coverage of issues and the many real life case studies make this practice oriented book a reference and key reading It is intended for environmental consultants engineers regulators and operators in the field and for students to use as a course textbook As much of the matter applies to the extractive industries as a whole it will also serve environmental professionals in the oil and gas industries Karlheinz Spitz and John Trudinger both have multiple years of experience in the assessment of mining projects around the world The combination of their expertise and knowledge about social economic and environmental performance of mining and mine waste management has resulted in this in depth coverage of the requirements for responsible and sustainable mining
