Robert H. Carver

Doing Data Analysis With Minitab14:

Doing Data Analysis with Minitab 14 Robert H. Carver, 2004 This text provides clearly written and comprehensive tutorials that allow introductory students of statistics to learn how to use MINITAB TM software to their full advantage The book s tutorials and exercises demonstrate MINITAB as a way to understand statistical concepts and practice statistical reasoning All datasets are real and reflect a variety of subject areas including business social sciences physical sciences life sciences humanities engineering and general interest **The Essential Guide to Doing Your Research Project** Zina O'Leary, 2009-10-21 The Essential Guide to Doing Your Research Project gives students the knowledge and skills they need to get from clueless to completed This highly readable text guides the reader through each stage of their research project from getting started to writing up with each chapter clearly explaining a step along the way Based on the author s hugely popular The Essential Guide to Doing Research this new book retains the warmth wit and grounded nature of the first while providing tools to help students through the ins and outs of their own projects and addressing the key questions students need to tackle such as What is this thing called research and why do it How can I assure that my research project has integrity How to I develop a researchable question How do I construct a winning proposal What exactly is expected in a literature review What options are there in qualitative quantitative mixed and more purposive methodological designs Is it best to work with a sample key informants or a case What data collection options are there and how do I choose How should I work with my quantitative data What should I do with my qualitative data How in the world will I capture this on paper This is an inspiring book full of down to earth advice illuminating figures and diagrams and engaging real life examples With this book as your personal mentor a successfully completed research project is well within reach Zina O Leary is an applied social scientist and senior lecturer at the University of Western Sydney She is the author of *Researching Real World Problems* and *The Social Science Jargon Buster* **Minitab Student Version 14 for Windows + Mind on Statistics with CD + Doing Data Analysis with MINITAB 14 (with CD-ROM) +** Robert F. Heckard, Jessica M. Utts, Robert Carver, 2006-11-01 Doing Data Analysis with SPSS Version 12.0 Robert H. Carver, Jane Gradwohl Nash, 2005 Now updated for SPSS 12 0 this book is an excellent supplement to any introductory statistics course It provides a practical and useful introduction to SPSS 12 0 and enables students to work independently to learn helpful software skills outside of class By using SPSS to handle complex computations students can focus on and gain an understanding of the underlying statistical concepts and techniques in the introductory statistics course *Researching Real-World Problems* Zina O'Leary, 2005-11-23 Taking as her starting point the need for students to conduct research for themselves in the real world Zina O Leary guides those new to research through the whys and how tos of the entire research process This student focused book offers a hands on and practical guide to the research process *Real World Research* Colin Robson, 2024-04-05 Provides students and practitioner alike with clear and systematic guidance on performing social research in applied settings Real World Research supplies the multidisciplinary

skills necessary to conduct social research projects inside and outside of the classroom or the workplace Offering well balanced coverage of qualitative quantitative and mixed methods this highly practical resource incorporates approaches from different social science disciplines to help readers find answers to real life research questions in healthcare education business and management and in many other public and private settings Detailed yet accessible chapters include step by step advice for developing a research question choosing a research design strategy collecting and analyzing the data interpreting and reporting the results and more The fifth edition contains timely coverage of contemporary methodologies key ethical issues and ongoing debates within the field of social research New and expanded sections address topics such as evidence based approaches to social research ethical considerations when conducting research involving people carrying out projects based solely on existing research and the importance and implications of internet based research Featuring a wealth of up to date examples drawn from a wide range of disciplines this classic textbook Focuses on useful real world research in applied settings such as homes schools businesses and other workplaces Provides a concise overview and a well defined example of each main step of the research process Highlights the importance of collaboration cooperation and active participation in social research Explains flexible research designs using largely qualitative methods including additional coverage of ethnographic and grounded theory approaches Includes an extensive companion website with numerous research examples links to journal articles PowerPoint slides and many other additional resources Real World Research Fifth Edition remains essential reading for those tasked with developing performing and reporting the findings of a research project including students academics and educators social scientists health practitioners and professionals in a diverse range of fields
