    Introduction to Philosophy Louis P. Pojman,1999-08-15 The readings in this acclaimed topically organized collection cover five major areas of philosophy philosophy of religion theory of knowledge philosophy of mind freedom and determinism and ethics Editor Louis P Pojman enhances the topical organization by arranging the selections into a pro con format to help students better understand opposing arguments He also includes comprehensive accessible introductions to each chapter subsection and individual reading a unique feature for an anthology of this depth While Introduction to Philosophy 2 e

focuses on a compelling sampling of classical material including selections from Plato Aristotle Descartes Locke Berkeley Hume and Kant it also incorporates a representation of philosophy s best twentieth century and contemporary work featuring articles by such philosophers as Bertrand Russell Richard Taylor John Searle and Thomas Nagel This second edition contains an expanded glossary a more extensive appendix on logic and eight new selections John Locke Philosophy The Love of Truth versus Enthusiasm Fyodor Dostoevsky Why Is There Evil from The Brothers Karamazov John Maynard Smith Science and Myth Thomas Nagel What Is It Like to Be a Bat John Searle Minds Brains and Computers Richard Taylor Libertarianism A Defense of Free Will Galen Strawson The Impossibility of Moral Responsibility Thomas Hobbes defense of contractualism from Leviathan   Philosophy Manuel G. Velasquez,2002   *Historiography and the Formation of Philosophical Canons* Sandra Lapointe,Erich H. Reck,2023-06-16 This book presents a series of case studies and reflections on the historiographical assumptions methods and approaches that shape the way in which philosophers construct their own past The chapters in the volume advance discussion of the methods of historians of philosophy while at the same time illustrating the various ways in which philosophical canons come into existence debunking the myth of analytical philosophy s ahistoricism and providing a deeper understanding of the roles historiographical devices play in philosophical thought More importantly the contributors attempt to understand history of philosophy in connection with other historical and historiographical approaches contributors engage classical history of science sociology of knowledge history of psychology and historiography in dialogue with historiographical practices in philosophy more narrowly construed Additionally select chapters adopt a more diverse perspective by making place for non Western approaches and for efforts to construe new philosophical narratives that do justice to the voice of women across the centuries Historiography and the Formation of Philosophical Canons will be of interest to researchers and advanced students working in history of philosophy meta philosophy philosophy of history historiography intellectual history and sociology of knowledge   Thinking Critically about Philosophical Problems Thomas F. Wall,2001 Cited by one reviewer as a work of stunning originality this new text presents philosophy both as a collection of fundamental problems and as a method to solve problems the method of critical thinking Students become active participants in doing philosophy in using the method of philosophy as philosophers do when they are thinking well The various parts of the text are organized to reflect a recurring pattern of critical thinking and exercises are provided throughout the text to sharpen these thinking skills in the context of solving philosophical problems In addition to addressing individual philosophical problems this text also encourages students to integrate their solutions into a coherent worldview   **Forthcoming Books** Rose Arny,2004   **Ethics for the Professions** John Rowan,2003 This new text provides students with the tools necessary to make ethically sound decisions in the professions they choose for themselves The text combines lucid explanations of leading philosophical moral theories with detailed discussion of how those theories are to be applied Each chapter concludes with short cases and questions to engage students in solving perplexing

professional ethics issues **Ethics in the Workplace** Robert A. Larmer,2002 This introductory textbook begins by discussing basic tenets of ethical theory and their relevance to business practices It then addresses a business particular obligations to its employees its customers and society as a whole Issues like collective bargaining sexual harassment safety inside A Practical Guide to Electronic Resources in the Humanities Ana Dubnjakovic,Patrick Tomlin,2010-09-25 From full text article databases to digitized collections of primary source materials newly emerging electronic resources have radically impacted how research in the humanities is conducted and discovered This book covering high quality up to date electronic resources for the humanities is an easy to use annotated guide for the librarian student and scholar alike It covers online databases indexes archives and many other critical tools in key humanities disciplines including philosophy religion languages and literature and performing and visual arts Succinct overviews of key emerging trends in electronic resources accompany each chapter The only reference guide to electronic resources written specifically for the humanities Addresses all major humanities disciplines in one convenient guide Concise format ideal for students librarians and humanities researchers *Logic and Controversy* Maurice Stanley,2002 This new text brings the traditional material of introductory logic critical thinking informal and modern symbolic logic to bear on present day issues terrorism abortion the death penalty ABM treaty stem cell research essays and editorials found in the New York Times USA Today Miami Herald and other major newspapers and news magazines from all over the United States This original format engages students in applying logic and critical thinking to important issues They learn not only the techniques of introductory logic but will achieve a much deeper understanding of the great controversies that we face **Fundamentals of Reasoning** Robert M. Johnson,2002 The predominant strategy of this text is to move from the simple to the complex It includes topics such as categorical and sentential logic informal fallacies inductive logic and extended arguments With a non technical approach this book leads students step by step through simple demonstrations and then on to more complex material as their comfort level increases Well designed examples sample problems explanatory charts and diagrams and exercises abound **Society, Ethics, and Technology** Ralph Edelbach,Morton Emanuel Winston,2003 This anthology presents a variety of historical social and philosophical perspectives on technological change and its social consequences stressing the manner in which technological innovation creates new ethical problems for human civilization Providing a strong foundation in both theoretical and applied ethical matters SOCIETY ETHICS AND TECHNOLOGY encourages students to critically engage anew the social effects of the technology that surrounds them in their daily lives **Subject Guide to Books in Print** ,1991 **The Medieval Voyage** William F. Lawhead,2002 Highly praised by reviewers for its clarity and rich exposition this history of philosophy text illustrates philosophy as a process and not just a collection of opinions or conclusions Lawhead helps students retrace the philosopher s intellectual journey rather than simply giving a report of the results so that the students see how the problems arose Thus the philosopher s problem becomes a puzzle which the student has to face Lawhead uses metaphors analogies

vivid images concrete examples common experiences and diagrams to bring the abstract issues down to earth and show the practical implications and contemporary relevance of positions   *Watersheds 3* Lisa H. Newton,Catherine K. Dillingham,2002 This is the only environmental casebook of its kind presenting current and classic cases with the detail required for readers to experience serious and complex issues The authors present cases of immediate interest to readers in a balanced and impartial manner   *The Ancient Voyage* William F. Lawhead,2002 Highly praised by reviewers for its clarity and rich exposition this history of philosophy text illustrates philosophy as a process and not just a collection of opinions or conclusions Lawhead helps students retrace the philosopher s intellectual journey rather than simply giving a report of the results so that the students see how the problems arose Thus the philosopher s problem becomes a puzzle which the student has to face Lawhead uses metaphors analogies vivid images concrete examples common experiences and diagrams to bring the abstract issues down to earth and show the practical implications and contemporary relevance of positions   <u>Brümmer on Meaning and the Christian Faith</u> Vincent Brümmer,2019-10-01 This volume presents a wide ranging selection from the writings of a leading contemporary philosophical theologian Vincent Br mmer In his many books and articles Br mmer has demonstrated how the tools of philosophical analysis are not only fruitful but also essential for dealing with the central issues of systematic theology The title of this volume Meaning and the Christian Faith highlights two characteristic themes that recur throughout the many writings of Vincent Br mmer Much of his work has been devoted to exploring the meaning of the Christian faith and especially of its central claim that God is a personal being whose fellowship believers may enjoy On the other hand Br mmer has also shown that religious belief should not be understood as an explanatory theory but rather as a way in which believers understand the meaning of their lives and their experience of the world and direct their lives accordingly Thus in the Christian tradition believers claim that their lives are meaningful because they seek to attain ultimate happiness in the love of God In the introductory sections throughout this volume Vincent Br mmer describes how he came to pay attention to the various themes dealt with in his writings and explains why he came to deal with them in the ways he did
