The Palgrave Handbook of Malicious Use of AI and Psychological Security Evgeny Pashentsev, 2023-06-09 This

handbook focuses on new threats to psychological security that are posed by the malicious use of AI and how it can be used to counteract such threats. Studies on the malicious use of AI through deepfakes, agenda setting, sentiment analysis, and affective computing, and so forth, provide a visual representation of the various forms and methods of malicious influence on the human psyche and through this on the political, economic, cultural processes, the activities of state and non-state institutions. Separate chapters examine the malicious use of AI in geopolitical confrontation, political campaigns, strategic deception, damage to corporate reputation, and activities of extremist and terrorist organizations. This is a unique volume that brings together a multidisciplinary range of established scholars and upcoming new researchers from 11 countries. This handbook is an invaluable resource for students, researchers, and professionals interested in this new and developing field of social practice and knowledge.

Technology-Mediated Learning Environments for Young English Learners L. Leann Parker, 2023-05-31. This book explores issues related to the use of technologies to support young second language learners and looks at promising areas for research design and development. Grounded in a sociocultural theoretical framework, it invites educators, researchers, and educational technology developers to consider a range of social and cultural factors in utilizing technology as a tool to help children from diverse linguistic and cultural backgrounds develop their English language and reading skills. A major contribution is the authors' consideration of ways that technology outside of school can benefit these students. English language development in school. The central chapters are counterpointed by invited reflections that bring to the discussion different yet complementary perspectives from notable scholars in the field of second language literacy and learning. *Technology Mediated Learning Environments for Young English Language Learners* is targeted to researchers, educators, and policymakers in the areas of elementary education, after school learning, second language teaching and learning, English language and literacy development, and reading.
