## **Best Remote Customer Service Jobs Guide For Busy Professionals:**

*After the Pandemic* Randy Whitaker, 2022-10-10 Many things define a job seeker experience education first impressions connections passion and the value you might bring to the company you wish to work for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would have a four year college degree To a great extent an employer still would like someone with a four year college degree However I believe this is changing The need for those who work with their hands and those who are willing to work their way up through the various levels of an organization is becoming more and more desired by companies The time it will take you to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly hired college grad based on the four years you have been working in your industry of choice as you continue to work your way up through the company You will find the more value you bring to a company the more they will look to you to assume great responsibility Typically the more responsibility the greater the paycheck What makes this book timely is the fact as COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself the job you always wanted without the cost and time involved with getting a four year college education I have nothing against getting a degree and there are still many fields where they will always be mandatory however the trades service industries government railroads law enforcement plus many others will welcome you with open arms without the need for a four year degree I hope this book helps
