Instagram Secrets Alexander Vinci, 2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform If you just starting reading through this guide and are thinking that your business isn't an eCommerce business and so Instagram isn't the place for you think again Remember the key proposition that Instagram brings is visualization Consider these examples 1 You're a real estate agent and want to highlight the newest mountain home that you have on the market 2 You are a world class hospital that just released a new mother's ward with beautiful birthing and stay suites with a spa like feel 3 You're a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online but the business is building brand awareness and drumming up interest so that the consumer will visit their website or pick up the phone to learn more The mysterious Instagram algorithm While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and

no longer relevant posts They ll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform For businesses that want to enable the Shopping capability they need to meet the following requirements You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company s registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing we will not be providing a deep dive of the Instagram Shopping capability Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book [Social Media Marketing and Instagram Marketing](#) Michael Branding,2021-01-19 Turn your Instagram profile into a money making machine with this amazing book Get it today and turn attention into sales [Personal Branding](#) Gary Clarke,2019-05-11 Many people would like to further their career create a successful blog work as a personality on YouTube and so much more But all of this is going to take some time and some effort and many will give up before they even start But creating a good personal brand will be able to help you reach your goals in no time at all you just need to know the right steps to use to get started This guidebook is going to take some time to explore how you can make your own personal brand as well If you are willing to take your time and really explore all that there is with creating this kind of brand you will be amazed at the results that you can get as well Whether you want to increase your chances of getting a job you want to start your own career or you are looking to become a type of celebrity with enough work you will find that personal branding is going to help you get there Some of the topics that we are going to explore when it comes to personal branding will include The basics of having your own personal brand How you can have the right mentality to help you start your own personal brand The tools that you need to build up your own personal brand The steps that you need to take to get started Remembering the importance of being yourself How to choose your audience to get the best return on your time The importance of using a mentor during this time Why you should consider having a good team behind you to ensure you get started on the right track How to create a brand on Facebook YouTube Instagram and Twitter How you can grow your personal brand over time Creating a personal brand is
