*Brand Management* Michael Beverland, 2021-02-03 Presenting the basics of brand management, the book provides both a theoretical and practical guide to brands, placing emphasis on the theory that the consumer is a co-creator in a brand's identity. In a world in which social media and inclusive digital platforms have increased customer engagement, the role of brands and branding has changed. The line between the producer and the consumer has become blurred; consumers are no longer the recipients of brand identity but the co-creators playing a significant role in shaping new products and systems. Case studies include the Canterbury Crusaders, KVD Beauty, Kodak, Yamaha, Ottobock, and Holland's rebrand as The Netherlands.

Reputation in Business Stuart Thomson, 2022-09-28 A compelling mix of reputation management, crisis leadership, and the role of politics in business, this book provides unique practical steps that leaders can take to protect their reputations and those of the organisations they head in an ever more open, social media-led world. Although leaders increasingly recognise the vital intangible asset that reputation represents, too many do not really understand what reputation is and the steps that should be taken to build it and their corporate value. Given the range of factors depending on the organisation, each aspect of its complex reputational story needs to be unpicked if a reputation is to be built, maintained, and protected. This step-by-step guide offers advice on how to develop the strategies needed to do this, provides clear lessons throughout from a range of experts, and distinctively looks beyond the corporate sector to charities, governments, NGOs, and the public sector. Boards, trustees, non-executive directors, senior management, and leaders of all types of organisations need to consider the steps that should be taken to build, maintain, and defend their reputation, and that means knowing what their reputation is and the audiences that matter most to them. This book is the roadmap.
