Improve customer experience with chatbots Beata Stefanowicz, 2023-02-13 We have come a long way in the past 70 years since chatting to a computer was first mentioned A chatbot is a computer program that communicates with human users over text or through a speech to text system Businesses can use chatbots to communicate with their customers and recreate the in store shopping experience online Ecommerce companies can do this by Welcoming visitors to their online store Offering support within arm's reach Showing personalized deals Using proactive sales techniques Helping customers find the right products Upselling items and services Handling complaints on auto pilot Offering membership cards Collecting feedback from shoppers Offering multilingual support Many ecommerce brands are already taking advantage of chatbots to get ahead of their competitors Why not try them for yourself and see what this technology can do for your business

Smart Bots, Happy Customers Gosia Szaniawska-Schiavo, 2024-08-26 Did you know that AI can automate up to 58% of customer service interactions Our study on chatbot statistics also confirmed that almost 1.5 million people had at least one conversation with a chatbot within the past year Well AI revolutionized how businesses help their clients It enabled 24/7 support through chatbots and virtual assistants increased efficiency and allowed human agents to focus on more complex issues There is just one issue Not every chatbot is AI Simultaneously not all AI powered solutions will be perfect for all tasks related to customer service especially in the ecommerce field Believe us we would know At Tidio we help 300k businesses worldwide automate customer service collect leads on autopilot and increase sales Tidio is one of the

most installed chatbot and live chat companies worldwide specializing in providing tailored customer service solutions We always strive to be on the cutting edge and respond to our customers biggest challenges One of them is strategically combining rule based and AI powered chatbots so that businesses can elevate their customer service to new heights

Increase sales and lead generation with AI and chatbots Krzysztof Wroblewski, 2023-07-10 To grow your ecommerce business you need to gain more clients And to achieve it you have to provide high quality customer experience Sounds logical But the more visitors on your website the more questions your support agents have to handle And here is the challenge you need to face to successfully grow your store How to serve more clients answer more questions and maintain the high quality of support at the same time There are two ways The first is to constantly hire new support agents It probably will work but the cost you ll have to take for constantly recruiting and training new employees will be huge The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time If not forever The AI
