Ramhorry,2024-08-22 DESCRIPTION Building Intelligent Applications with Generative AI is a comprehensive guide that unlocks the power of generative AI for building cutting edge applications This book covers a wide range of use cases and practical examples from text generation and conversational agents to creative media generation and code completion These examples are designed to help you capitalize on the potential of generative AI in your applications Through clear explanations step by step tutorials and real world case studies you will learn how to prepare data and train generative AI

models You will also explore different generative AI techniques including large language models like GPT 4 ChatGPT Llama 2 and Google s Gemini to understand how they can be applied in various domains such as content generation virtual assistants and code generation With a focus on practical implementation this book also examines ethical considerations best practices and future trends in generative AI Further this book concludes by exploring ethical considerations and best practices for building responsible GAI applications ensuring you are harnessing this technology for good By the end of this book you will be well equipped to leverage the power of GAI to build intelligent applications and unleash your creativity in innovative ways

**KEY FEATURES** Learn the fundamentals of generative AI and the practical usage of prompt engineering Gain hands on experience in building generative AI applications Learn to use tools like LangChain LangSmith and FlowiseAI to create intelligent applications and AI chatbots

**WHAT YOU WILL LEARN** Understand generative AI GAI and large language models LLMs Explore real world GAI applications across industries Build intelligent applications with the ChatGPT API Explore retrieval augmented generation with LangChain and Gemini Pro Create chatbots with LangChain and Streamlit for data retrieval

**WHO THIS BOOK IS FOR** This book is for developers data scientists AI practitioners and tech enthusiasts who are interested in leveraging generative AI techniques to build intelligent applications across various domains

**TABLE OF CONTENTS**

- 1 Exploring the World of Generative AI
- 2 Use Cases for Generative AI Applications
- 3 Mastering the Art of Prompt Engineering
- 4 Integrating Generative AI Models into Applications
- 5 Emerging Trends and the Future of Generative AI
- 6 Building Intelligent Applications with the ChatGPT API
- 7 Retrieval Augmented Generation with Gemini Pro
- 8 Generative AI Applications with Gradio
- 9 Visualize your Data with LangChain and Streamlit
- 10 Building LLM Applications with Llama 2
- 11 Building an AI Document Chatbot with Flowise AI
- 12 Best Practices for Building Applications with Generative AI

**Generative AI for Software Development** Seifedine Kadry,Balasubramaniam S,2025-06-30

As the field of Artificial Intelligence continues to evolve Generative AI has emerged as a powerful tool in the realm of software development AI models capable of generating high quality human like code can significantly accelerate the software development process assist in troubleshooting and even automate tasks traditionally performed by human developers Generative AI models such as OpenAI DeepMind and others are already demonstrating the ability to write functional code generate documentation and assist in code review These models are not only reducing the time it takes to develop applications but are also making software development more accessible to a broader audience including non technical users This book is intended to serve as a comprehensive guide for developers technology leaders and anyone interested in understanding how to leverage Generative AI in software development It will cover the underlying technology behind these models practical use cases integration into development workflows and ethical considerations Additionally it explores how the democratization of coding through AI will shape the future of software engineering By providing insights into real world applications and best practices for integrating generative AI into the software lifecycle this book empowers

readers to stay ahead of the technological curve in a rapidly evolving industry      *Data Management, Analytics and Innovation* Saptarsi Goswami, Sajal Saha, Romit S Beed, Kanadpriya Basu, 2025-11-11 This book presents the latest findings in the areas of data management and smart computing big data management artificial intelligence and data analytics along with advances in network technologies The book is a collection of peer reviewed research papers presented at 9th International Conference on Data Management Analytics and Innovation ICDMAI 2025 held during 17 19 January 2025 at St Xavier s College Autonomous Kolkata India It addresses state of the art topics and discusses challenges and solutions for future development Gathering original unpublished contributions by scientists from around the globe the book is mainly intended for a professional audience of researchers and practitioners in academia and industry The book is divided into three volumes

digital visibility translating AEO Answer Engine Optimization GEO Generative Engine Optimization and LLMO Large Language Model Optimization into simple actionable steps for non technical creators marketers and business owners A first of it s kind to introduce measurable frameworks for Conscious Visibility it is our mirror Every search engine every algorithm every AI assistant is a reflection of the knowledge we feed it When misinformation rises it s not the machine that failed it s the human ecosystem that optimized for attention instead of understanding The Augmented Human Renaissance invites us to reverse that pattern It asks a simple but profound question What if we taught machines to remember our truth not our noise Consciousness First Approach to AI Visibility Traditional SEO asks How can I rank higher Conscious Visibility asks What do I want the world and machines to remember about me This shift from manipulation to stewardship defines the Consciousness First approach It s about designing visibility with intentional awareness aligning what you publish with what you truly stand for In GurukulAI s model Visibility becomes an act of clarity Content becomes a vessel of consciousness Optimization becomes education The Conscious Visibility Architect the professional identity introduced in this book doesn t hack algorithms They harmonize message structure and ethics ensuring that when AI quotes them it quotes truth aligned with human growth Who This Book Is For and Why It Matters to Each 1 The SEO Digital Marketing Professional Evolving into AI Visibility Strategist You ve mastered keywords backlinks and analytics but you feel search slipping away Clicks are down AI answers dominate You wonder What happens to SEO when AI summarizes everything This book gives you the bridge You ll learn how to evolve into an AEO GEO consultant mastering no code tools visibility audits and SOURCE based authority frameworks that keep your relevance alive in AI first ecosystems 2 The Small Business Owner or Entrepreneur You built your brand on content referrals and Google visibility Now AI assistants answer before your site even loads But here s the insight if your expertise is structured correctly those same AIs can quote you directly This book gives you plug and play templates to create Answer Hubs schema based content and ethical AI workflows so you can win visibility without hiring a technical team 3 The Marketer or Creator You tell stories build audiences and manage digital presence but generative AI feels like both a threat and a shortcut Should you embrace it Compete with it Ignore it Visible to AI shows you how to co create with it You ll learn how to brief AI tools effectively Prompt to Presence Pipeline maintain human creativity and design workflows that keep your content unique authentic and scalable 4 The Student or Early Learner You re entering a job market that values AI literacy but rarely defines it You hear buzzwords agentic AI workflow automation LLM optimization yet you crave clarity This book teaches you the human side of AI literacy You ll learn to think in frameworks not jargon to design clarity not complexity By the final page you ll know how to speak both human and machine language 5 The Consultant Coach or Thought Leader Your expertise is your product You depend on credibility citations and digital authority This book teaches you how to codify your wisdom into formats AI can interpret and amplify Through the AI Trust Triad and SOURCE Score you ll learn how to ensure your name and content appear when people or machines seek expert answers in your domain What Makes This Book

Different Most books on SEO or AI content fall into two camps 1 Too technical focusing on code APIs or algorithms 2 Too shallow repackaging basic marketing tips under new buzzwords Visible to AI breaks both molds It s non technical yet deeply strategic It translates complexity into structure philosophy into practicality and ethics into checklists Every framework VISA Q Stack SOURCE Schema Lite Conscious Visibility Charter was designed inside the GurukulAI Thought Lab tested in live use cases and written to serve both a strategist s intellect and a creator s intuition It s a playbook that meets you where you are and scales with where you re going How This Book Fits into the GurukulAI Living Ecosystem GurukulAI is building more than a library it s building a living learning ecosystem where each book course and training lab complements the next Here s how Visible to AI fits within that ecosystem Visible to AI is the bridge between literacy and leadership it equips you to master the new search paradigm while aligning your visibility with purpose awareness and ethics The Augmented Human Renaissance A Movement Not a Metaphor When GurukulAI speaks of the Augmented Human Renaissance it s not poetic branding it s a blueprint for the next evolution of human capability It means rebalancing Automation Augmentation using AI to extend not replace humans Efficiency Empathy optimizing not just for performance but for wellbeing Information Insight shifting from noise accumulation to conscious learning Through this lens Visible to AI becomes more than a marketing manual It s a philosophical guide for the Conscious Visibility Architect professionals who ensure that the knowledge machines quote is accurate humane and ethically aligned The goal is not to dominate AI engines it s to educate them To teach AI how to cite contextualize and spread human wisdom responsibly When you design visibility consciously you re not just improving your brand You re shaping the informational ethics of the future Conscious Visibility in Action The Ethical Edge Every chapter closes with a Thought Lab Reflection a short reflective piece tying strategy back to human awareness Because visibility without ethics becomes manipulation And manipulation in the AI age doesn t just mislead it multiplies GurukulAI s Conscious Visibility Charter acts as both a compass and a filter Accuracy over clickbait ensures your content contributes to knowledge not confusion Evidence over hype builds long term AI trust signals Human benefit over exploitative tactics aligns your strategy with wellbeing Transparency about AI generated content keeps credibility intact This is how we convert visibility from a race into a renaissance from being loud to being luminous The Utility of GurukulAI Frameworks Beyond the Page Each framework in Visible to AI is designed to live beyond the book They re modular teachable and workshop ready forming the backbone of GurukulAI s Thought Lab Town Halls AI Visibility Clinics and Membership Programs For instance The Q Stack Blueprint becomes a live training template for teams building Answer Hubs The SOURCE Score evolves into a certification audit for AEO GEO readiness The AI Visibility Sprint is used in consulting engagements for small and medium enterprises The Conscious Visibility Charter is adopted by coaches and organizations as a public ethics pledge The result is a living curriculum not a static book a movement that updates with every AI evolution Why Visibility is the New Literacy In the industrial era literacy meant reading and writing In the digital era it meant coding and publishing In the AI era literacy

means being visible correctly Visibility now defines credibility If AI cannot find you cite you or contextualize your work your expertise may as well not exist But visibility without consciousness risks distortion That s why Visible to AI combines strategy with philosophy it teaches you not just how to be seen but how to be seen responsibly Because the next frontier of literacy isn t about what we read it s about what the machines read from us The Long Term Value for Readers After completing this book you ll be able to Understand how AI engines perceive select and quote information Audit Measure and structure your content for Answer Ready visibility Implement ethical and sustainable AEO GEO workflows without code Translate your personal or brand expertise into machine readable authority Join the GurukulAI Thought Lab ecosystem for continued learning and collaboration But more importantly you ll walk away with a new lens the ability to see technology not as a tool to manipulate but as a mirror of human consciousness The Future GurukulAI Is Building GurukulAI envisions a world where Corporations become Conscious Corporations Leaders become Augmented Leaders Creators become Conscious Visibility Architects AI tools become Mirrors of Integrity Every book every lab every framework every training programs contributes to that vision creating a multi layered ecosystem that blends business strategy with ethical design analytics with awareness and AI with empathy In that ecosystem Visible to AI is your gateway to practice what GurukulAI preaches Augment your visibility Amplify your awareness Align with truth A Final Word from the Thought Lab This is not just a marketing revolution it s a consciousness revolution disguised as one When you optimise your visibility through this playbook you re not just improving search results You re teaching AI systems what human wisdom sounds like when it s written with clarity integrity and depth That is the purpose of Visible to AI To transform visibility into stewardship To turn every reader into a teacher of machines Because in the age of artificial intelligence those who teach well will be remembered well The GurukulAI Invitation Join the movement shaping the Augmented Human Renaissance Become part of the GurukulAI Thought Lab Membership where you ll gain Access to AEO GEO toolkits templates and live workshops Free downloads of frameworks and update packs from this book Invitations to Thought Lab Town Halls and Research Circles where industry meets ethics Direct learning pathways into GurukulAI s advanced programs Prompt Engineering Playbook The Conscious Corporation and Augmented Leadership Lab Because this is not just about learning AEO or GEO or LLMO it s about leading the future of conscious AI communication
