Chamorro Reference Grammar Donald M. Topping, Bernadita C. Dungca, 1980 **Chamorro Reference Grammar** Donald M. Topping, 2021-05-25 Chamorro Reference Grammar is a detailed description of the grammatical structure of the indigenous language of the Mariana Islands. It is designed primarily as a reference work which will serve to give native speakers some insight into the complexities of their language and to encourage its use at a time when other languages are more prestigious. The book contains an introduction to Chamorro and its developmental history and dialectal variations and with a minimum of technical linguistic terms it treats phonology, morphology and syntax. Notes to linguists and a glossary of linguistic terms are included. **Spoken Chamorro** Donald M. Topping, 1980-06-01 Spoken Chamorro is designed to enable the student to learn to speak and understand the Chamorro language the way native speakers do in their everyday activities. This second edition has been revised to incorporate the spelling conventions adopted by the Marianas Orthography Committee in January 1971 and suggestions made by teachers who have used the text in the classroom. The basic material in the text remains unchanged, the work of the author and Pedro M. Ogo, principal of Rota Elementary and High School, who is a native speaker of the language. As much as possible, the lessons exclude regionalisms, presenting the language as it is heard generally on Guam, Saipan, Rota, and elsewhere throughout the Mariana Islands. **Chamorro Reference Grammar [by] Donald M. Topping, with the Assistance of Bernadita C. Dungca** Donald M. Topping, 1973 **Pacific Languages in Education** France Mugler, John Lynch, 1996 This collection of articles and interviews explores policy, practice and attitudes relating to the use of Pacific languages in education systems of most Pacific Island countries and territories from pre-school to tertiary level. It records history, it deals with current attitudes and prejudices and it focuses attention on perceived problems with the medium of education in many parts of the region. Back cover Composition Linguistique Des Nations Du Monde Heinz Kloss, Grant D. McConnell, 1981 NIH Publication, 1983 The Mixed Language Debate Yaron Matras, Peter Bakker, 2008-08-22 Mixed Languages are speech varieties that arise in bilingual settings, often as markers of ethnic separateness. They combine structures inherited from different parent languages, often resulting in odd and unique splits that present a challenge to theories of contact-induced change as well as genetic classification. This collection of articles is devoted to the theoretical and empirical controversies that surround the study of Mixed Languages. Issues include definitions and prototypes, similarities and differences to other contact languages such as pidgins and creoles, the role of codeswitching in the emergence of Mixed Languages, the role of deliberate and conscious mixing, the question of the existence of a Mixed Language continuum and the position of Mixed Languages in general models of language change and contact-induced change in particular. An introductory chapter surveys the current study of Mixed Languages. Contributors include leading historical linguists, contact linguists and typologists among them Carol Myers-Scotton, Sarah Grey Thomason, William Croft, Thomas Stolz, Maarten Mous, Ad Backus, Evgeniy Golovko, Peter Bakker, Yaron Matras. **Oceanic Voices - European Quills**

Steven Roger Fischer, 2015-03-03 *Oceanic Voices European Quills* celebrates the linguistic historiography of two Oceanic poles. The northwest Pacific's Chamorro of Guam and the Northern Marianas was the first 16th century and the southeast Pacific's Rapanui of Easter Island one of the last 19th century of the Austronesian tongues to inspire linguistic investigation within greater Oceania. These pioneering efforts are honored in nine articles which document, translate, chronicle, describe, and analyze the earliest relics from these two island cultures. This collection of articles reveals fundamental insights not only into earlier stages of both Chamorro and Rapanui but also into the very discipline of linguistic historiography in one of Earth's humanly richest and most fascinating regions.

Mokilese Reference Grammar Sheldon P. Harrison, Salich Y. Albert, 1976. *Bibliography of Amyotrophic Lateral Sclerosis and Parkinsonism-dementia of Guam* Ralph M. Garruto, 1983. Approximately 600 entries to literature, mostly journal articles about Guam, the Kii Peninsula of Japan, and West New Guinea. Also includes as a supplement of additional selected references on history and geography, natural environment, general anthropology, and health and disease in Guam and the Northern Mariana Islands. Chronological arrangement of the main section. Each entry gives bibliographical information. Author index.

Palauan Reference Grammar Lewis S. Josephs, 1975. Offers a comprehensive description of the Palauan language, capturing the essential phonological and grammatical principles unique to the language.
