The book critically examines the concepts of participation and social inclusion and their links with children and childhoods and considers the geography of social inclusion and exclusion. It explores young people's own conceptualisations of social inclusion and exclusion and examines how these concepts have been expressed in policy at various levels. The book concludes with an agenda for progressing participation and social inclusion both for and with children and young people. Children, young people and social inclusion will be of interest to academics, students and policy makers as well as to a wide range of practitioners including teachers, youth workers, participation workers and those working in interagency settings.
