Helms, 2004-12-07 How have the American presidency the British premiership and the German chancellorship changed over the last half century Has there been convergence or divergence in the development of political leadership in the United States and in the two largest democracies of Western Europe And what difference can individual leaders make in an ever more complex political environment *Presidents Prime Ministers and Chancellors* addresses these questions by looking at the leadership performance of more than two dozen American presidents British prime ministers and German chancellors of the post 1945 period In so doing it offers a unique perspective on the nature of executive leadership in Western democracies that takes into account both the international and the historical dimension of comparison **Political Data Handbook** Jan-Erik Lane, David McKay, Kenneth Newton, 1996-12-26 This fully revised and updated edition of an established reference book provides in one volume the most comprehensive and detailed statistical guide available to the government and politics of the twenty four countries in the OECD There is no lack of statistical data about the OECD countries the nineteen countries of Western Europe together with Canada the United States Japan Australia and New Zealand but much of the material is hard to track down and little is available in comparative form The editors of the present volume have sifted through many hundreds of sources to select the essential facts and figures on population social structure employment the economy public finance government structures and political parties from 1950 to the present day In addition they provide social and economic background for each of the countries covered to enable the data to be put in context A short final section lists sources of

further information The resulting combination is both invaluable and fascinating whether it is used casually to check up a fact or two or systematically to make detailed comparisons between the most advanced political systems of the Western world
