Change And Apathy Liverpool And Manchester During The Industrial Revolution:

Change and Apathy François Vigier, 1970 In this study Vigier examines the development of pressures and tensions associated with the Industrial Revolution in Liverpool and Manchester cities with contrasting traditions of local government

The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

Loyalism and Radicalism in Lancashire, 1798-1815 Katrina Navickas, 2009-01-15 Loyalism and Radicalism in Lancashire 1798 1815 is a lively and detailed account of popular politics in Lancashire during the later years of the French Revolution and during the Napoleonic wars Drawing on a wide variety of sources such as letters diaries and broadside ballads it offers fresh insights into the complicated dynamics between radicalism loyalism and patriotism and emphasises Lancashire's distinctive political culture and its place at the heart of the industrial revolution This region witnessed some of the most intense disruptive and violent popular politics in this period and beyond Highly active and vocal groups emerged extreme republicans more moderate radicals Luddites early trade unionists and also strong networks of Church and King loyalists and Orange lodges Katrina Navickas explains how this heady mix created a politically charged region where both local and national affairs played their part She follows the inner workings of popular political activity in response to both internal and external threats including loyalist processions and civic events volunteer corps formed as defence against invasion food riots strikes by trade unions and both secret and public meetings on the key issues of peace and parliamentary reform Navickas argues for a distinct sense of regional identity that shaped not only local politics but also patriotism Lancastrians felt British in the face of the French but it was a particularly Lancastrian type of Britishness

The Politics of the People in Eighteenth-Century Britain H.T. Dickinson, 2016-01-13 This challenging and original study examines the most important aspects of popular political culture in eighteenth century Britain The first part explores the way the British people could influence existing political institutions or could exploit their existing powers by looking at the role of the people in parliamentary elections in a wide range of pressure groups in their local urban communities and in popular demonstrations The second part shows how the British people became increasingly politicised

during the eighteenth century and how they tried to shape or defend their political world *The Rise of the English Town, 1650-1850* Christopher Chalklin, 2001-01-04 This volume examines the growth and development of English towns when the proportion of the population living in towns rose from a sixth to a half Chalklin surveys the demography economy and social structure of market and county towns *An Historical Geography of Railways in Great Britain and Ireland* David

Turnock, 2016-12-05 Although a great deal has been published on the economic social and engineering history of nineteenth century railways the work of historical geographers has been much less conspicuous This overview by David Turnock goes a long way towards restoring the balance It details every important aspect of the railway s influence on spatial distribution of economic and social change providing a full account of the nineteenth century geography of the British Isles seen in the context of the railway The book reviews and explains the shape of the developing railway network beginning with the pre steam railways and connections between existing road and water communications and the new rail lines The author also discusses the impact of the railways on the patterns of industrial urban and rural change throughout the century Throughout the historical geography of Ireland is treated in equal detail to that of Great Britain **Beatlemania** André

Millard, 2021-04-27 This look at how changes in the music industry made the Fab Four phenomenon possible presents a different interpretation of a much studied topic Essays in Economic and Business History In this unique study Andr Millard argues that despite the Beatles indisputable skill they would not have attained the same global recognition or been as influential without the convergence of significant developments in the way music was produced recorded sold and consumed As the Second Industrial Revolution hit full swing and baby boomers came of age the reel to reel recorder and other technological advances sped the evolution of the music business Musicians recording studios and record labels and music fans used and interacted with music making and playing technology in new ways Higher quality machines made listening to records and the radio an experience that one could easily share with others even if they weren t in the same physical space At the same time an increase in cross Atlantic commerce especially of entertainment products led to a freer exchange of ideas and styles of expression notably among the middle and lower classes in the U S and the UK At that point Millard argues the Beatles rode their remarkable musicianship and cultural savvy to an unprecedented bond with their fans and spawned Beatlemania Lively and insightful Beatlemania offers a deeper understanding the days of the Fab Four and the band s long term effects on the business and culture of pop music *Drink in the Eighteenth and Nineteenth Centuries* Susanne

Schmid, Barbara Schmidt-Haberkamp, 2015-10-06 This collection of essays covers the representation and practice of drinking a variety of beverages across eighteenth and nineteenth century Britain and North America The case studies in this volume cover drinking culture from a variety of perspectives including literature history anthropology and the history of medicine

Crowds and History Mark Harrison, 2002-06-20 A fresh look at the crowd in relation to the urbanising process and the civic culture it inspired **The Making of Manchester Jewry, 1740-1875** Bill Williams, 1976 *Subject Catalog Library*

of Congress,1970 *Library of Congress Catalog* Library of Congress,1970 A cumulative list of works represented by Library of Congress printed cards **Fighting Fires** Shane Ewen,2010 Examines the history of the British fire service from 1800 1980 embracing certain key themes of modern British history the impact of industrial change on urban development the effect of disaster on political reform the growth of the state and the relationship between masculinity and trade unionism in creating a professional identity The Construction of an Urban Past Harry Jansen,2001-09 This book offers a new theoretical basis for urban studies and for historical studies in general by addressing one of the main problems that confronts contemporary historians How is it possible to process and synthesize an increasingly overwhelming amount of specialist research in the face of the theoretical deadlock caused by postmodernism How can we move beyond its claim that the past is unknowable Jansen s approach in which he claims there is a reality that is accessible to our cognitive capacities is based on Systems Theory which has already been applied so successfully in the fields of management and organization While focusing his attention on urban historiography Jansen argues that an integrative systems approach can be used in any field of historical enquiry to create a meaningful picture of the past He illustrates the importance of structuring data in this way by looking at the profound complexity of the urban environment This book is therefore important reading not only for urban historians and geographers but also for all social scientists interested in the future study of the European city **Scientific Culture and Urbanisation in Industrialising Britain** Ian Inkster,1997 Ian Inkster s intent in these studies is to move beyond the high culture and expertise of science towards the construction of the culture of urban communities The work draws on a mass of detailed research and focuses on Britain s social and cultural advantages over other industrialising nations in the years prior to the Great Exhibition of 1851 an advantage which was not created by any single decision nor by any explicit investment effect Out of urban culture emerged a public sphere and an information system within which class divisions were abrogated at the same time the relations between information and technique became complex and decidedly non linear So was created a social asset drawn upon by business interests technicians tinkerers and inventors throughout the period and for some considerable time beyond it Industrial Britain was made from diverse materials amongst which were those fabricated in the course of cultural dissent and social ambition *Industrial regions in transformation* Rainer Schulze,1993 **The Publishers Weekly** ,1971 *Writings on British History* ,1969 Program of the Annual Meeting - American Historical Association American Historical Association,1971 Some programs include also the programs of societies meeting concurrently with the association **Program of the ...
