## **Change And Tradition In Rural England An Anthology Of Writings On Country Life:**

Change and Tradition in Rural England Denys Thompson, 1980-11-20 This 1980 anthology contains some of the finest and most significant writing on English country life from Cobbett through Jefferies Sturt Hardy Hudson and Flora Thompson to Thomas Hennell and Adrian Bell A good many of the selections are taken from books originally published by Cambridge University Press None of the authors is nostalgic about country life They all wanted a better future for country people but their primary aim was to describe what they saw A survey is offered of the peasant civilisation of England which despite widespread poverty and hardship encouraged people to go on living and produced a wealth of folk song and a wide range of craft work The authors go on to record the changes brought about by large scale farming and the concomitant heavy investment in machinery and chemicals Denys Thompson anticipates the anthology as a reminder of human achievement and potential and his substantial general and sectional introductions show how the lessons and values of the past can be used to revitalise an industrial civilisation

**The World They Made Together** Mechal Sobel, 2021-06-08 In the recent past enormous creative energy has gone into the study of American slavery with major explorations of the extent to which African culture affected the culture of black Americans and with an almost totally new assessment of slave culture as Afro American Accompanying this new awareness of the African values brought into America however is an automatic assumption that white traditions influenced black ones In this view although the institution of slavery is seen as important blacks are not generally treated as actors nor is their divergent culture seen as having had a wide ranging effect on whites Historians working in this area generally assume two social systems in America one black and one white and cultural divergence between slaves and masters It is the thesis of this book that blacks Africans and Afro Americans deeply influenced white s perceptions values and identity and that although two world views existed there was a deep symbiotic relatedness that must be explored if we are to understand either or both of them This exploration raises many questions and suggests many possibilities and probabilities but it also establishes how thoroughly whites and blacks intermixed within the system of slavery and how extensive was the resulting cultural interaction
