Change in an African Village Else Skjønberg, 1989 **Change at Shebika** Jean Duvignaud, 1970 **Two Decades of Change in an African Village**, 2006 Heart and Soul, 1995 **The Human Factor in Changing Africa** Melville J. Herskovits, 2013-11-05 Focussing on the problems of change and resistance to change that mark the African sub continent this book examines Africa s place in the world from earliest times It considers the nature of its peoples in their prehistoric development the ways in which their cultures were oriented and the ways in which these cultures guided their reactions to European ideas It also assesses the human responses to industrial technological and economic changes and the re discovery by the Africans of African culture Originally published in 1962 **Livelihood and Landscape Change in Africa: Future Trajectories for Improved Well-Being under a Changing Climate** Sheona Shackleton, Paul Hebinck, Chinwe Ifejika Speranza, Vanessa Masterson, Dian Spear, Maria Tengö, 2019-10-08 This book is based on a Special Issue of the journal LAND that draws together a collection of 11 diverse articles at the nexus of climate change landscapes and livelihoods in rural Africa all explore the links between livelihood and landscape change including shifts in farming practices and natural resource use and management The articles which are all place based case studies across nine African countries cover three not necessarily mutually exclusive thematic areas namely smallholder farming livelihoods under new climate risk five articles long term dynamics of livelihoods and landscape change and future trajectories two articles and natural resource management and governance under a changing climate spanning forests woodlands and rangelands four articles The commonalities key messages and research gaps across the 11 articles are presented in a synthesis article All the case studies pointed to the need for an integrated and in depth understanding of the multiple drivers of landscape and livelihood change and how these interact with local histories knowledge systems cultures complexities and lived realities Moreover where there are interventions such as new governance systems REDD or climate smart agriculture it is critical to interrogate what is required to ensure a fair and equitable distribution of emerging benefits *Tradition and Progress in the African Village* Klaus Ernst, 1976 Monograph examining the problems of social change based on principles of socialism as opposed to capitalism in rural communities of Mali covering the period 1960 to 1968 discusses the desire to re establish sound community relations and to avoid dependence of economic and social development on a system of neo colonialism suggests that the evolution from traditional culture to a social structure based on agricultural production should be gradual and includes a glossary of bambara words Bibliography pp 245 to 262 maps references and statistical tables **The Oxford Handbook of Children's Rights Law** Jonathan Todres, Shani M. King, 2020-02-19 Children s rights law is a relatively young but rapidly developing discipline The U N Convention on the Rights of the Child the field s core legal instrument is the most widely ratified human rights treaty in history Yet like children themselves children s rights are often relegated to the margins in mainstream legal political and other discourses despite their application to approximately one third of the world s

population and every human being's first stages of life. Now thirty years old, the Convention on the Rights of the Child (CRC) signalled a definitive shift in the way that children are viewed and understood from passive objects subsumed within the family to full human beings with a distinct set of rights. Although the CRC and other children's rights law have spurred positive changes in law, policies and attitudes toward children in numerous countries, implementation remains a work in progress. We have reached a state in the evolution of children's rights in which we need more critical evaluation and assessment of the CRC and the large body of children's rights law and policy that this treaty has inspired. We have moved from conceptualizing and adopting legislation to focusing on implementation and making the content of children's rights meaningful in the lives of all children. This book provides a critical evaluation and assessment of children's rights law, including the CRC. With contributions from leading scholars and practitioners from around the world, it aims to elucidate the content of children's rights law, explore the complexities of implementation, and identify critical challenges and opportunities for children's rights law.
