Murphy, 2012-05-15 When stress creates a wedge between the rational mind and the emotional mind we cannot be free to choose However nature offers us the tools to create and support positive change This will matter as we age Finally a practical solution for such a common and persistent problem A highly motivating read from a new perspective This book can be applied immediately and continue to help those who need answers for life and business Highly recommended for those who are looking for help now SCOTT SHARP ARMSTRONG life coach and international author Best Affirmations **Change Your Life with NLP** Jimmy Petruzzi, 2014-12-01 This book is for anyone looking to take his or her life to a new level whether it is personal life professional or sport The book is also an excellent guide for anyone learning NLP The difference between succeeding and having a fruitful career and an amazing life is minimal Being consistent with our actions Becoming the best we can be in every area of our life By transferring these same skills and principles and mind set that many of the world's best athletes and sports people use to be at the top of their game to people in every day life to help fulfil their potential Anything is possible Results in sport depend crucially on your ability to use your mind effectively Many elite athletes say the mental aspects of sport make the difference between being a champion or not As little as 1% can be the difference between being a champion and being ranked 50th in the world In the game of life the margins of greatness and mediocrity are also minimal This book can help you discover your potential and obtain your dreams You don't need to settle for anything less than what you want or what you want to be The book is full of practical exercises on how to use your mind more effectively To gain more success in your life get the best out of yourself in every aspect of your life Fulfil your potential **Change Your Life's Direction** Jim Taylor, PhD, 2021-05-07 Jim Taylor explores how to harness the four forces that can control our life inertia and propel our lives in the direction of our OWN choosing values self esteem ownership and emotions Many people think of inertia as an object at rest will stay at rest unless a force is exerted on it like a boulder in a field And people can think of their lives in the same way static and unmoving But we aren't stuck in one place as so many express when they are dissatisfied with their lives Rather our lives are moving swiftly and inexorably along a path driven by powerful forces both past and present that is highly resistant to a change in direction As a result small forces such as a modest insight or a brief aha moment aren't enough to catalyze significant change in how we think what we feel or how we act on or react to our world In fact meaningful change can only occur when forces are applied that are greater than the forces that are already propelling our lives Seeing our lives from this dynamic perspective is the foundation for understanding what it takes to bring meaningful and long lasting positive change to our lives Jim Taylor explores the four forces values self esteem ownership and emotions that propel our life inertia which shows itself through the lens with which we view the world the emotional reactions we have the actions that we take and the relationships that we create He then explains how to harness those to our own benefit so that we may steer our lives in the direction of our own choosing rather than allowing our past inertia or

outside forces to dictate the direction our lives take By letting our values guide us building our self esteem taking ownership of our decisions and actions and using our emotions as positive fuel we can break free from our past inertia take control of our lives and chart a future of meaning happiness success and connection with confidence commitment and courage
