Changel The Biography Of A Village:

Changel Arvind N. Das, 1996 Historical account of Changel a remote village in Bihar India *The Peasant Production of Opium in Nineteenth-Century India* Rolf Bauer, 2019-04-09 Winner of the 2019 Michael Mitterauer Prize for best monograph
The Peasant Production of Opium in Nineteenth Century India is a pioneering work about the more than one million peasants who produced opium for the colonial state in nineteenth century India Based on a profound empirical analysis Rolf Bauer not only shows that the peasants cultivated poppy against a substantial loss but he also reveals how they were coerced into the production of this drug By dissecting the economic and social power relations on a local level this study explains how a triangle of debt the colonial state's power and social dependencies in the village formed the coercive mechanisms that transformed the peasants into opium producers The result is a book that adds to our understanding of peasant economies in a colonial context An Agrarian History of South Asia David Ludden, 2011-02-17 Originally published in 1999 David

Ludden's book offers a comprehensive historical framework for understanding the regional diversity of agrarian South Asia Adopting a long term view of history it treats South Asia not as a single civilization territory but rather as a patchwork of agrarian regions each with their own social cultural and political histories The discussion begins during the first millennium when farming communities displaced pastoral and tribal groups and goes on to consider the development of territoriality from the sixteenth to the nineteenth centuries Subsequent chapters consider the emergence of agrarian capitalism in village societies under the British and demonstrate how economic development in contemporary South Asia continues to reflect the influence of agrarian localism As a comparative synthesis of the literature on agrarian regimes in South Asia the book promises to be a valuable resource for students of agrarian and regional history as well as of comparative world history

Biblio, 1997-03 **Seminar**, 1997 **Early Capitalism and Local History in South India** David E. Ludden, 2005

This study of the Tirunelveli region of Tamil Nadu challenges the conventional view that subsistence isolation and immobility characterized Indian villages before modern times Examining the agrarian history of Tirunelveli during the millennium before 1900 David Ludden shows that peasant communities not only transformed rural society but shaped states and empires including British India This edition also has a new preface **Global Encyclopaedia of Indian Philosophy** Nagendra Kr
