inadequately understood In Outward poet scholar and novelist Ed Pavli considers Rich's entire oeuvre to argue that her most profound contribution in poems is her emphasis on not only what goes on within us but also what goes on between us Guided by this insight Pavli shows how Rich's most radical work depicts our lives from the public to the intimate in shared space rather than in owned privacy Informed by Pavli's friendship and correspondence with Rich Outward explores how her poems position visionary possibilities to contend with cruelty and violence in our world Employing an innovative framework Pavli examines five kinds of solitude reflected in Rich's poems: relational solitude, social solitude, fugitive solitude, dissident solitude, and radical solitude He traces the importance of relationships to her early writing before turning to Rich's explicitly antiracist and anticapitalist work in the 1980s which culminates with her most extensive sequence *An Atlas of the Difficult World* Pavli concludes by examining the poet's twenty-first century work and its depiction of relationships that defy historical divisions based on region, race, class, gender, and sexuality A deftly written engagement in which one poet works within the poems of another Outward reveals the development of a major feminist thinker in successive phases as Rich furthers her intimate and erotic social and political reach Pavli illuminates Rich's belief that social divisions and the power of capital inform but must never fully script our identities or our relationships to each other
