themes for the modern marketer In particular the Marketing Book now looks at broader range of international issues with a broader group of international contributors Based as in previous editions on seminal articles from thought leaders in each subject the Marketing Book 6th edition is bursting with salient articles It amounts to an all embracing one volume companion to modern marketing thought ideal for all students of marketing Shopping for Meaningful Lives Bruce P.

Rittenhouse,2013-03-27 Consumerism is a problem It deforms individual character our sense of obligation to one another and our concern for future generations and the environment Even in the aftermath of the worst economic downturn in seventy years it remains a defining feature of Western cultures But beyond this assessment neither Christian theologians and ethicists nor secular economists and sociologists have understood what drives consumerism or what can be done to counteract it This is the problem that Bruce P Rittenhouse solves in *Shopping for Meaningful Lives* Dr Rittenhouse analyzes economic sociological and psychological evidence to prove that consumers behave differently than the current theories predict Dr Rittenhouse shows that consumerism functions as a religion It provides a means of assurance that an individual life is meaningful Because we need this assurance to live out our everyday lives consumerism takes precedence over whatever other values a person professes unless a person can adopt a different way to secure the meaning of his or her life This interpretation explains how consumers actually behave From the perspective of Christian theology consumerism is a wrong answer to a problem of human existence that should be answered by faith in Christ **Consumer Markets Update**
