Changing Samoans Behavior And Health In Transition

Michael P. Muehlenbein

Changing Samoans Behavior And Health In Transition:

The Changing Samoans Paul T. Baker, Joel M. Hanna, Thelma S. Baker, 1986 This timely work interprets Baker's landmark study which spanned ten years of the effects of acculturation on the Samoans. The contributors assess his findings from a variety of perspectives discussing physical and biological anthropology, demography, physiology, sociology, nutrition, health, and behavior. A unique look at all aspects of the impact of technological advances and western influences on developing populations.

Social Aspects of Obesity Igor De Garine, Nancy J. Pollock, 2013-09-13 This collection of essays examines obesity not as an objective medical or psychological problem but as a subjective social and cultural phenomenon. The contributors take a cross-cultural perspective examining both the negative casting of obesity in developed countries and the traditional view of obesity as a positive characteristic in subsistence societies which is threatened by the dominance of Western culture.

Human Population Biology Michael A. Little, Jere D. Haas, 1989 This book is a careful integration of the social and biological sciences drawing on anthropology, biology, human ecology, and medicine to provide a comprehensive understanding of how our species adapts to natural and man-made environments. Part I presents techniques to adapt and apply demographic methods to small populations particularly important for studying non-Western populations. Part II discusses the relationship of medical genetics to human adaptability and patterns of disease in non-Western populations. Part III covers capacity, climatic stress, and nutrition. Part IV presents methods for growth assessment and prediction and addresses the topic of aging. The final section, Part V, presents integrated case studies of human adaptation to high altitude and patterns of modernization and stress resulting from cultural change.

Social Support and Cardiovascular Disease Sally A. Shumaker, Susan M. Czajkowski, 2013-11-21 In this groundbreaking work, distinguished contributors explore the myriad relationships between networks of social support and the development, treatment, and rehabilitation of individuals with cardiovascular disease. Chapters span the range from conceptual to methodological issues and take into account gender, environmental, and cultural differences. The book will provide a wealth of information for clinicians and students in the fields of behavioral medicine, psychophysiology, and cardiovascular disease.

Pacific-Indigenous Psychology Siautu Alefaio-Tugia, 2022-12-02 This book provides an overview of Pacific Indigenous knowledge as insights of Oceanic citizen science to inform culturally safe practice for psychology. It profiles contemporary Pacific needs in areas of crisis such as family violence, education disparities, and health inequities and points to ancient Pacific indigenous knowledges as tools of healing for global diasporic communities in need. The historical evolution of psychology's knowledge base and practice illustrates a fundamental crisis in the method of producing knowledge for psychology: the absence of Pacific indigenous cultural knowledge. It suggests more effective research methodologies grounded in Pacific Indigenous epistemologies and ontologies for psychology and overall community capability. It fosters practice perspectives and strategies based on NIU psychology. New Indigenous Understandings for innovative solutions to modern-day crises of humanity.

Human

Evolutionary Biology Michael P. Muehlenbein, 2010-07-29 A wide ranging and inclusive text focusing on topics in human evolution and the understanding of modern human variation and adaptability

Cardozo Journal of International and Comparative Law, 1997 Journal of the American Dietetic Association, 1999 American Sociological Review, 1936

Includes sections Book reviews and Periodical literature *Collegium Antropologicum*, 1993 Human Adaptability Past, Present, and Future Parkes Foundation. Workshop, 1997 Adaptation and adaptability are central issues in human population biology and biological anthropology They are the processes by which relationships between humans and their environments are established and maintained This volume charts developments in the study of human adaptation and adaptability at the population level in both theoretical and methodological terms It represents a unique evaluation by the leading researchers in the field offers a unique review of adaptability studies and it identifies future directions for the study of human population biology in a changing world Anthropology Newsletter, 1991

Lifestyle Diseases in Pacific Communities Terry Coyne, 2000 Pacific Studies, 1998 South Pacific Bibliography, 1991 **Oceania** Alfred Reginald Radcliffe-Brown, Raymond Firth, Adolphus Peter Elkin, 1991

Confronting Critical Health Issues of Asian and Pacific Islander Americans Nolan Zane, David Takeuchi, Kathleen N. J. Young, 1994 This is the first book that exclusively addresses the range of health issues confronting Asian and Pacific Islanders in the United States It critically examines and reviews the distribution of factors associated with health problems in specific Asian and Pacific Islander populations Expert contributors address the top priority health problems and issues facing these groups including infectious diseases diabetes hypertension cancer AIDS HIV substance abuse and mental health In addition current trends in health care policy are examined as well as the methodological problems that have hampered health research in Asian and Pacific Islander communities

The Study of Chronic Disease Risk Factors of Children Living in American Samoa Maria Escalante Bovill, 2005

Integrating Language and Learning for Inclusion Li-Rong Lilly Cheng, 1995 Ten essays provide interdisciplinary discussion of issues relating to education special education and communication disorders with an emphasis on the impact these issues have on Asian and Pacific Island peoples Annotation copyright by Book News Inc Portland OR

Sick Societies Robert B. Edgerton, 1992-11-02 Author and scholar Robert Edgerton challenges the notion that primitive societies were happy and healthy before they were corrupted and oppressed by colonialism He surveys a range of ethnographic writings and shows that many of these so called innocent societies were cruel confused and misled
