sure if he was joking He raised his voice They have to move Very quickly it became clear to a number of people at the highest levels of government that their gravest mission was to protect America from Donald Trump Trump and His Generals is Peter Bergen s riveting account of what happened when the unstoppable force of President Trump met the immovable object of America s national security establishment the CIA the State Department and above all the Pentagon If there is a real deep state in DC it is not the FBI so much as the national security community with its deep rooted culture and hierarchy The men Trump selected for his key national security positions Jim Mattis John Kelly and H R McMaster were products of that culture Trump wanted generals and he got them Three years later they would be gone and the guardrails were off From Iraq and Afghanistan to Syria and Iran from Russia and China to North Korea and Islamist terrorism Trump and His Generals is a brilliant reckoning with an American ship of state navigating a roiling sea of threats without a well functioning rudder Lucid and gripping it brings urgently needed clarity to issues that affect the fate of us all But clarity unfortunately is not the same thing as reassurance
