Chairs Peter Darty, 1973      **A History of Seating, 3000 BC to 2000 AD** Jenny Pynt, Joy Higgs, 2010 The focus of this book is on functional seating and the key argument presented is that functional seating needs to assist the person using it for the performance of seated tasks enhance rather than detract from the person's posture and health and it needs to provide aesthetic features that do not limit task or health The book spans the period 3000BC to 2000AD and presents largely Western seating This book is unique in its approach to seating because it draws together evidence that relates to seating that facilitates health and task while also addressing aesthetic factors This evidence creates an understanding of how seats may be designed to not only promote bodily health but also allow functional optimisation of sitting and seating This book is important to furniture and industrial designers interior decorators architects those teaching seat design health professionals attending and educating those who relax or work in the seated position furniture historians and members of the general public interested in the history of seating      **Architectural Digest**, 1995      **Library of Congress Catalogs** Library of Congress, 1976      **Furniture History**, 1976      Library of Congress Catalog Library of Congress, 1974-10 A cumulative list of works represented by Library of Congress printed cards      **Descriptive and Visual Dictionary of Objects** Louise Bernard, Parks Canada, 1997 This publication provides a classified list of objects based on the object's original function and on the objects in the Parks Canada national collection of over 50 000 historic objects This particular volume includes standardized terms in English with French equivalents for three broad categories of objects structures buildings components site features other structure furnishings bedding floor coverings furniture household accessories lighting devices plumbing fixtures temperature control devices window or door coverings and personal artefacts clothing adornment footwear accessories personal gear toilet articles Information given for each term includes an illustration description other designations used for the object Parks Canada nomenclature code and other terms not to be confused with the entry term Includes index of terms      *Subject Catalog* Library of Congress, 1970      *National Union Catalog*, 1978 Includes entries for maps and atlases      *Relics*, 1973      **The Connoisseur**, 1907      **A Bibliography on Historical Organization Practices: Documentation of collections** Frederick L.
