Challenger Sketchbook: B. Shephard's Sketchbook of the H. M. S. Challenger Expedition, 1872-1874 Benjamin Shephard, 1972 **Underwater Worlds** Will Abberley, 2019-01-15 Underwater Worlds throws open a new area in the emerging field of blue environmental humanities by exploring how subaqueous environments have been imagined and represented across cultures and media The collection pursues this theme through various disciplinary perspectives and methodologies including history literary and film criticism myth studies legal studies and the history of art The essays suggest that since the nineteenth century technologies of underwater exploration have generated novel sensory experiences that have destabilized conventional modes of representation and influenced new aesthetic forms from fiction and television to virtual reality The collection also examines how representations of underwater environments have reflected and critiqued humans relationships with marine ecology and life forms It reflects on the deeper cultural and symbolic resonances of mythical figures such as mermaids sea monsters and the ghosts of drowned seafarers The contributions further reveal myriad political ideological gendered and racial dimensions of representing underwater environments **Catalogue of the Library of the Museum of Comparative Zoology, Harvard University** Harvard University.
