Challenges In Health:

The Challenges of Health Disparities Darren Liu, Betty Burston, Shartriya C. Stewart, Heidi H. Mulligan, 2018-09-12 This unique text explores health disparities in the United States and their implications from the perspective of a health care administration. The book begins with a broad overview of health disparities including definitions from local state and federal legislation as well as alternative definitions. The authors examine current and past frameworks of analysis regarding the causes of disparities and provide a statistical overview of death rates and their implications for health care administrators. In the final section of the book each chapter looks at health disparities within each type of health care environment such as physician practices, hospitals, pharmaceutical products, Medicare, Medicaid, long term care, insurance markets and more.

Challenges and Opportunities in Health Care Management Sebastian Gurtner, Katja Soye, 2014-11-27 This contributed volume draws a vital picture of the health care sector which like no other is affected by technology push and stakeholder pull. Innovative product and service solutions emerge which have to integrate different stakeholders' interests. This book studies current challenges in health care management from different perspectives. Research articles analyze the situation in the health care sector and present solutions in the following areas: the health care system, hospitals, teams in health care, patients' perspectives, assessment of technologies and innovations, and toolkits for organizing health care. All these contributions summarize pressing hot topics in the health care sector, analyze their future potential, and derive managerial implications. Outstanding best practices throughout Europe are presented in the case study section of the book. Consequently, the book closes the gap between science and practical application by addressing not only readers from academia but also practitioners working in the health care industry.

Multi-Sector Analysis of the Digital Healthcare Industry Chatterjee, Lagnajita, Gani, Nidhi, 2024-03-27 In the wake of the digital healthcare revolution, a critical challenge has emerged: the lack of a comprehensive understanding stemming from fragmented research. Despite the industry's meteoric rise, existing literature often compartmentalizes insights, neglecting the intricate multi-sector collaborations that fuel its progress. This gap hinders scholars and industry professionals, leaving them with a myopic view of the digital healthcare landscape. The urgent need for a holistic exploration has never been more apparent. *Multi-Sector Analysis of the Digital Healthcare Industry* is a groundbreaking book that will uncover the complexities of digital healthcare with a panoramic lens. This carefully curated collection of cross-functional chapters is a beacon guiding academics and industry specialists through the difficulties of the industry's past, present, and future. With experts from fields spanning medicine, technology, business, and regulatory sectors, this book addresses the limitations of current research but serves as a compass for those seeking a more profound comprehension of digital healthcare's collaborative dynamics.

Digital Transformation in Healthcare in Post-COVID-19 Times Miltiadis Lytras, Abdulrahman Housawi, Basim Alsaywid, 2023-05-12 *Digital Transformation in Healthcare in Post-Covid19 Times* discusses recent advances in patient care and offers critical comparative insights into their

application across multiple domains in healthcare By showcasing key problems best practices and emerging challenges the book offers a state of art review of opportunities and prospects in the process of delivering smart sustainable healthcare services Topics discussed include healthcare challenges in the post COVID 19 era enabling technologies for digital transformation value driven approaches to the delivery of patient centric top quality health services and analytics and enhanced decision making In addition the book updates knowledge on best practices for training towards digital transformation and sustainable health This is a valuable resource for healthcare professionals medical doctors researchers graduate students and members of the biomedical field who are interested in learning more about the use of emerging technologies in healthcare Holistically discusses the new landscape of digital transformation and sustainability in health Presents a case study driven approach based on real world scenarios to help readers apply the knowledge gained into practice Promotes sound research on the impact of emerging technologies in health and life specialties and their relevant role during the COVID 19 pandemic
