

The background of the entire image is a warm, orange-brown gradient, suggesting a sunset or sunrise. On the right side, there is a dark silhouette of a child standing and holding a string. A long, thin kite string extends from the child's hand towards the left, where it connects to a circular kite. The kite has a dark, abstract design on it. The overall mood is nostalgic and contemplative.

Changing Experience Of Childhood Families And Divorce:

The Changing Experience of Childhood Carol Smart, Bren Neale, Amanda Wade, 2001-10-18 Family life in modern societies is being transformed by high rates of divorce. Such changes have given rise to concerns that the quality of family life for children has deteriorated and that children are damaged by the choices their parents are making. It is possible however that children and families are more resilient than this. Rather than witnessing the end of the family and the end of contented childhood we could be seeing the emergence of post divorce families and new experiences of childhood based on these new arrangements. This path breaking book explores children's own accounts of family life after divorce and allows us to see these changes from their point of view. It provides a sociological perspective on how childhood may be changing and how the democratic status of children in the family may be in the process of transformation. The implications for family and legal policy of listening to children's views are also set out. *The Changing Experience of Childhood* will be of interest to all those in academic and public life concerned about the future of the family. *Children and Their Families* Andrew Bainham, 2003-09

This book examines the regulation of family relationships in particular the issue of openness and contact. **Supporting Children when Parents Separate** Mervyn Murch, 2018-07-04 After years of research and reflection on the work of the interdisciplinary family justice system Mervyn Murch offers a fresh approach to supporting the thousands of children every year who experience a complex form of bereavement following parental separation and divorce. This stressful family change combined with the loss of support due to austerity cuts can damage their education well being mental health and long term life chances. Murch argues for early preventative intervention which responds to children's worries when they first present them without waiting until things have gone badly wrong. His radical proposals for reform involve a much more coordinated and joined up approach by schools the Children and Family Court Advisory and Support Service and Child and Adolescent Mental Health Services. This book encourages practitioners and academics to look outside their professional silos and to see the world through the eyes of children in crisis to enable services to offer direct support in a manner and at a time when it is most needed. *The Blackwell Companion to the Sociology of Families* Jacqueline Scott, Judith Treas, Martin

Cherlin, 2005 This reader examines the family through two lenses the familiar private family in which we live our personal lives and the public family in which we deal with broader societal issues such as raising the next generation and the care of the elderly Consequently these readings look both at intimate personal concerns such as whether to marry as well as societal concerns such as governmental policies that affect families The reader corresponds exactly to and is published concurrent with Cherlin s textbook *Public and Private Families An Introduction* both the textbook and the reader have 15 same named chapters *Fathers' Rights Activism and Law Reform in Comparative Perspective* Sally Sheldon, Richard Collier, 2006-10 This book provides a careful critical and comparative analysis of the work campaigning and legal strategies of fathers rights activists Child Development and Education Teresa M. McDevitt, Jeanne Ellis Ormrod, 2010 Topically organised this text helps students understand development in action It uses case studies practice features basic developmental issues tables trends tables and observation guidelines tables *Families in Society* Linda McKie, Sarah Cunningham-Burley, Jo Campling, 2005 Acknowledging the increasing diversity and complexity of families this

innovative book proposes a new conceptual framework for understanding families and other relationships that both challenges and attempts to reconcile traditional and contemporary approaches Using the notion of boundaries the book shifts thinking from families as entities to families as relationship processes Emphasising the processes that underlie boundary construction and reconstruction suggests that the key to understanding family life is the process of relationship formation The ideas of entity boundary margins and hybridity provide a framework for understanding the diverse and often contradictory ways in which families contribute to society Families in society makes a significant contribution to the academic literature on families and is essential reading for social science students social researchers policy makers and practitioners interested in families and relationships
