Changing Lives Changing Times The First Decade Of Juma Ventures:

Changing Lives, Changing Times ,2003-01-01 Making Change Tina P. Kruse,2019 Making Change demonstrates the potential for youth to engage in social entrepreneurship to transform themselves and their communities Effective for all young people this approach is most impactful for youth in marginalized communities where the opportunity gap suppressed social mobility and economic disparity are most profound In such settings engaging youth as leaders of social change offers the exponential benefits of personal empowerment community enhancement and economic transformation Grounded both in interdisciplinary theory and an expansive set of practical case examples this book uses an asset focus and cultural relevance that centralizes youth and communities in social entrepreneurship while introducing vocabulary and frameworks for youth social entrepreneurship advocates to gain resources and political traction for the approach Social entrepreneurship is outlined as a social justice mechanism that allows disempowered adolescents to change their own communities with a positive compounding effect on their own lives and futures Consequently readers will have the opportunity consider the complex interplay of individual economic and community development versus oversimplifying causes or solutions of social disparities Individuals engaged in youth work program design funding and the study of youth and community development will appreciate the text s exploration of existing research and theory that cross scholarly disciplines to promote a robust view of youth development **The Real Problem Solvers** Ruth A. Shapiro,2012-11-28 Today social entrepreneurship describes a host of new initiatives and often refers to approaches that are breaking from traditional philanthropic and charitable organizational behavior Nowhere is this more true than in the United States where from 1995 2005 the number of non profit organizations registered with the IRS grew by 53% But what types of change have these social entrepreneurial efforts brought to the world of civil society and philanthropy What works in today s environment And what barriers are these new efforts breaking down as they endeavor to make the world a better place The Real Problem Solvers brings together leading entrepreneurs funders investors thinkers and champions in the field to answer these questions from their own first person perspectives Contributors include marquee figures such as Nobel Laureate Muhammad Yunus Ashoka Founder Bill Drayton Jacqueline Novogratz Founder of the Acumen Fund and Sally Osberg CEO of the Skoll Foundation The core chapters are anchored by an introduction a conclusion and question and answers sections that weave together the voices of various contributors In no other book are so many leaders presented side by side Therefore this is the ideal accessible and personal introduction for students of and newcomers to social entrepreneurship Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 **International Year Book Covering the Year ...** ,1990 Global Perspectives on Technology Transfer and Commercialization John Sibley Butler,David V. Gibson,2011-01-01 As we move further into the 21st century increasing emphasis is being placed on the importance of technology transfer Through new research and practices scholars practitioners and policymakers have made great strides in broadening our understanding and ability to implement

technology transfer and commercialization processes The fruit of that research is collected in this timely volume Technology transfer is a dynamic area of study that examines traditional topics such as intellectual property management the management of risk market identification the role of public and private labs and the role of universities This volume reflects on how government business and academia influence technology transfer in different countries and how the infrastructure of a country enhances technology and contributes to each country s overall economy Interpreting and adopting the processes of technology transfer and commercialization or building innovative ecosystems is critical to seeing success in this digital age Those leading the surge toward building innovative ecosystems for technology transfer are the fellows of the Institute for Innovation Creativity and Capital IC2 Institute at The University of Texas at Austin Global in its scope of solving market economy problems for this volume the Institute has focused its lens on accelerated knowledge based development Here scholars from 13 countries come together to critique technology transfer from each of their respective nations The results of their contributions lend innovative insight to exactly how different nations are working to maximize technology transfer and commercialization in uncertain times Those with an interest in commercialization and technology transfer from students to scholars practitioners to policymakers will find this important collection of great value
