The Crisis of the Meritocracy Peter Mandler, 2020-09-11 Before the Second World War only about 20% of the population went to secondary school and barely 2% to university today everyone goes to secondary school and half of all young people go to university How did we get here from there *The Crisis of the Meritocracy* answers this question not by looking to politicians and educational reforms but to the revolution in attitudes and expectations amongst the post war British public the rights guaranteed by the welfare state the hope of a better life for one s children widespread upward mobility from manual to non manual occupations confidence in the importance of education in a learning society and a knowledge economy As a result of these transformations meritocracy the idea that a few should be selected to succeed has been challenged by democracy and its wider understandings of equal opportunity across the life course At a time when doubts have arisen about whether we need so many students and amidst calls for a return to grammar school selection at 11 the tension between meritocracy and democracy remains vital to understanding why our grandparents our parents ourselves and our children have sought and got more and more education and to what end

Introduction to Education Studies Steve Bartlett, Diana M. Burton, 2007 *Introduction to Education Studies* is established as the key text for undergraduate students of education studies as well as for practitioners embarking on a higher degree The book provides a thorough grounding for students new to the subject without assuming a substantial prior knowledge of the area It also takes a multidisciplinary approach to the study of education drawing on the authors extensive experience of teaching and course development at both undergraduate and postgraduate level This updated edition includes new sections on the nature and purposes of education research in education ideologies and the curriculum lifelong learning comparative education social and psychological explanations for pupil student achievement policy developments in education This highly popular accessibly written text is

essential reading for students on education studies courses The authors have provided an important resource for student study in education Importantly it reinforces the necessity of a multi disciplinary approach to the understanding of contested educational process and practices in a contemporary context Dave Trotman Escalate

The Education Systems of Europe Wolfgang Hörner,Hans Döbert,Botho von Kopp,Wolfgang Mitter,2007-05-03 Education is a paradoxical phenomenon On the one hand it is universal as since the period of Enlightenment it has been declared universal good for everybody Mo over we learnt by historical research following the ideas of world system theory that since this time as far as its main structures are concerned compulsory state education given by professional teachers in classrooms it took even universal traits However on the other hand the fact that education became state education organised or at least controlled by the state was the beginning of another tradition line education in the form of state organised educational institutions became a means of creating national identity Universal inclusion as for the light of reason shining for everybody is opposed to more or less nationalist exclusion of all the others shaping the feature of a particular nation state with a particular educational system This fundamental dialectical tension between the universal and the particular was one to the important motives to make this handbook One of the central issues of the country studies is precisely to display the relationship between universal v ues and the search for national identity Another motive is given by the European dimension of the handbook

The Cultural and Social Foundations of Educational Leadership Romuald Normand,Lejf Moos,Min Liu,Pierre Tulowitzki,2021-07-12 This book identifies the cultural and moral foundations of country specific educational governance and school leadership and presents the principles of justice and the diversity of common goods that guide leadership practices in schools It contributes to an existing research field that studies diversity and ethical leadership in schools The social dimension of school leadership is not limited to issues related to equality and equity or social inclusion The capacity of leaders to promote civic mindedness and social cooperation consensus and acceptance of others the right balance between freedom and duties and reciprocity of obligations are essential to maintain democratic rights and facilitate the life together while respecting ethnic and cultural differences Therefore the book gathers contributions from a range of international authors capable of reporting these moral and cultural features while broadening the research perspectives on school leadership
