Changing The Way We Prepare Educational Leaders The Danforth Experience:

Changing the Way We Prepare Educational Leaders Mike M. Milstein,1993-05-28 Educational practitioners in America have become disillusioned with university preparation programmes that fail to prepare them for the realities of the workplace This volume summarizes the knowledge gained from five of the programmes instigated by the Danforth Foundation in its efforts to stimulate new approaches to the training of educational leaders The ramifications of what has been learned is discussed and an analysis of future issues for American schools is provided **Reshaping the Landscape of School Leadership Development** Philip Hallinger,2003-01-01 Reshaping the Landscape of School Leadership Development A Global Perspective traces developments in this arena as they evolved since 1980 The book is comprised of chapters authored by the leading scholars in the fields of educational leadership and school leadership development from the United States Canada Europe Asia and Australia The vol **Handbook of Research on the Education of School Leaders** , **Jsl Vol 6-N1 JOURNAL OF SCHOOL LEADERSHIP**,1996-01-01 The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts We welcome manuscripts based on cutting edge research from a wide variety of theoretical perspectives and methodological orientations The editorial team is particularly interested in working with international authors authors from traditionally marginalized populations and in work that is relevant to practitioners around the world Growing numbers of educators and professors look to the six bimonthly issues to deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement **The Politics of Leadership** George J. Petersen,Lance Fusarelli,2006-07-01 The primary contribution of this book is not its advocacy of a specific position but rather its objective analysis of cogent topics The content prompts us to consider governance in relation to quality education and to ponder alternative policy strategies that have yet to be fully evaluated As a young doctoral student more than a few years ago William Van Til an eminent scholar and a mentor reminded me almost daily that members of the education profession had a moral responsibility to address the most difficult questions about education and democracy These enduring queries he argued extended to determining how this critical social service should be organized and controlled and to determining the appropriate roles for administrators and teachers Those in our profession who fail to heed his advice by remaining indifferent to these philosophical dilemmas should consider Plato s long standing warning One of the penalties for refusing to participate in politics is that you end up being governed by your inferiors **Jsl Vol 6-N3 JOURNAL OF SCHOOL LEADERSHIP**,1996-05-01 The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts We welcome manuscripts based on cutting edge research from a wide variety of theoretical perspectives and methodological orientations The editorial team is particularly interested in working with international authors authors from traditionally marginalized populations and in work that is relevant to

the 42 universities and present an in depth evaluation of their survey findings describing and comparing the goals and objectives themes activities and philosophies of the courses taught Ethics in Educational Leadership Programs is a unique book that argues resolutely for inquiry and for the acceptance of scientific approaches to the study of ethical issues in educational administration **Interactive Learning for School Leaders** David Foo Seong Ng,2005 Interactive Learning for School Leaders discusses the design of interactive intelligent computer simulation systems as instructional tools for teaching school leadership These simulations enable leaders to acquire the ability to frame and solve school problems and to obtain declarative and procedural knowledge simultaneously Besides exploring the impact of knowledge acquisition among school leaders the potential of using these simulations as stand alone instructional tools is also discussed **National Forum of Educational Administration and Supervision Journal** ,2003 *Teacher Education Quarterly* ,1997
