Methodological Issues and Reflexivity Practices in Qualitative Language Teacher Education Research Gloria Park, Oksana Moroz, Sarah Henderson Lee, Bedrettin Yazan, 2025-11-28 This volume brings together researchers from around the world including Mexico, USA, China, Japan, Iran, Türkiye, Indonesia, and the UAE, conducting qualitative research in the field of language teacher education. Each chapter highlights cutting-edge research in language teacher education with particular emphasis on non-traditional research methods including autoethnography, narrative inquiry, participatory action research, and video-cued, multivocal ethnography. The contributors discuss the methodological challenges experienced by the researchers and participants in each study and share their recommendations for best practice. Discussion questions and research activities and assignments are included at the end of each chapter. Designed for students at both the advanced undergraduate and graduate levels, this volume is an essential guide for researchers interested in qualitative research methods, language teacher education, reflexivity, and researcher positionality.

AI in Social Studies Education Christopher H. Clark, Cathryn van Kessel, 2025 The introduction of widely available generative AI tools has caused a frenzy of both positive and negative reactions. Between utopian visions and apocalyptic predictions of AI's impact on education, there is a need to thoughtfully consider what education in the age of AI can and should look like. This volume focuses on the implications of AI technology for teachers in K-12 and university settings, providing a careful look at its affordances and drawbacks for social studies curriculum and teaching. Scholars specializing in the field of social studies education provide information and practical ideas for teaching with current technology alongside frameworks for thinking about future iterations of AI. This book fills a critical need, especially among educators, to consider the current and potential future impacts of AI while avoiding the traps of alarmism or

techno utopianism Whether skeptical or enthusiastic about AI every social studies educator will find something useful to their practice in this book

Book Features First ever compilation of AI considerations and strategies in the context of social studies education

Non-technical explanations of what AI can do and not do in practical educational contexts to enable educators to approach its use with careful judgment

Advice for educators to help them assess future iterations of AI technology

Critical considerations of AI across multiple contexts e.g. ethics equity multilingual learners cybersecurity

Work from leaders in technology and social studies education across Canada and the United States
