Chalk Whispers

**Emily Warren Elmore, Marie Louise

Chalk Whispers:

Curricula in Penmanship, 1923 *The Business Educator*, 1922 *The Whispering Molecules* Raad Chalabi, PhD, 2013

Ramiz Alkhishin the author's alter ego is a grocer. He has a passion for a life that is as independent as possible from its surroundings. To him the trendy place to be in is the one to avoid while the traditional road to follow is the one to bypass. He has already documented some of his thought adventures in eight earlier books. The author in his new book *The Whispering Molecules* listened to and recorded the whispers of a variety of inert composites. The result of this imaginary project was a series of forty-six stand-alone story dialogues where these seemingly lifeless objects express their human-like observations as they go about undertaking their designated tasks. The author hopes that through these dialectic scenes the reader can enjoy a trip where absolutes are banned and doubt is a constant companion. When questioned why he dislikes absolutes so much, Ramiz responded by reciting the following dialogue he had overheard: Glass: You seem confused. What happened to you? Water: What do you mean? Glass: You were clear and transparent but no more so. Water: I paid the price for being naïve. Glass: How? Water: By thinking that a drop of ink is too small to affect me.

Myth of the King J. R. Thomas, **Exhibition of Works by ...**, 1897 **The American Police Novel** Leroy Lad Panek, 2003-10-02

The American police novel emerged soon after World War II and by the end of the century it was one of the most important forms of American crime fiction. The vogue for either Holmesian genius or the plucky amateur detective dominated mystery fiction until mid-century. The police hero offered a way to make the traditional mystery story contemporary. The police novel reflects sociology and history and addresses issues tied to the police force such as corruption, management, and brutality. Since the police novel reflects current events, the changing natures of crime, court procedures, and legislation have an impact on its plots and messages. An examination of the police novel covers both the evolution of a genre of fiction and American culture in general. This work traces the emergence of the police officer as hero and the police novel as a significant popular genre from the cameo appearances of police in detective novels of the 1930s and 1940s through the serial killer and forensic novels of the 1990s. It follows the ways in which professional writers and police officers-turned-writers view the police individually and collectively. The work chronicles the ways in which changes in the law and society have affected the actions of the police and shows how the protagonists of police novels have changed in gender, race, nationality, sexual orientation, and age over the years. The major writers examined begin with Julian Hawthorne in the nineteenth century and include such writers as S. S. Van Dine, Ellery Queen, Erle Stanley Gardner, Ed McBain, Chester Himes, MacKinley Kantor, Hillary Waugh, Dorothy Uhnak, Joseph Wambaugh, Bob Leuci, W. E. B. Griffin, and Carol O'Connor.
