The Aesthetics of Lev Vygotsky Stella Medvedeva, 2025-11-13 At the crossroads of theater art and psychology Lev Vygotsky s compelling theory of aesthetics helped shape the intellectual currents of Russian Modernism This new book combines our understanding of Vygotsky s scientific and artistic legacies bridging the divide between human consciousness and the transformative power of art *The Aesthetics of Lev Vygotsky A Sociocultural Approach to Theater* introduces the concept of Vygotsky s aesthetics offering an unprecedented exploration of Lev Vygotsky s early writings on art literature and theater Long overshadowed by his later work in psychology these formative texts reveal a compelling theory of art s

psychological function shaped by the artistic and intellectual currents of Russian Modernism By rereading Vygotsky's aesthetic writings in dialogue with this context and with his mature psychological theories this book challenges the divide often drawn between his scientific and artistic legacies illustrating how Vygotsky's thinking oscillates fluidly between disciplines bridging the study of human consciousness with the transformative power of art Through this interdisciplinary lens Vygotsky's aesthetics emerges as a distinct and timely framework one that speaks not only to scholars of theater and psychology but to anyone interested in how art helps us understand what it means to be human

The Jungian Art. The Jungian Persona in Shakespeare's works Aleksandra Vujovic, 2022-01-28 Document from the year 2021 in the subject English Language and Literature Studies Literature grade A language English abstract This work deals with various characters from Shakespeare's works and analyses them according to the Jungian Art In the individuation process

Shakespeare sides with Jung related to the role and importance of the concept of free will. None of Shakespeare's heroes follow their fate as an externally imposed inevitable chain of events which lead to their doom. Rather it is their lack of self knowledge and self control as a sign of their failed individuation that causes their tragic ends. These characters embody a soul which is in many ways great and noble but which has a fatal flaw which plays the role of fate. In Jungian terms fate can be interpreted as unrecognized psychological processes or archetypes that are not dealt with which therefore influence or lead the actions of the ego conscience. Shakespeare explores in depth these flaws to which the tragic hero after an inner conflict fails to attempt to deal with the archetypal psychic forces. The result is that the tragic hero loses his soul the link to the archetype of Self as both the motivator and the goal of the individuation process. In that regard when we examine for example Othello it is obvious that the cause of his crisis and ruin is psychological and that his intellectual confusion is not the cause but rather the result of the chaos in his psyche. In Jungian terms Othello as the ego consciousness struggles and fails to understand and establish a functioning relationship with both Iago and Desdemona respectively seen as his shadow and anima. The importance of dealing with these archetypes as a means of reaching psychic balance as one of the indicators of a successfully ongoing individuation process is described from a Jungian point of view **Applications of Foucault's Theory**

KIM Jeong-a, 2025-06-30 As you can see from the title this book deals with the application of the theories of French modern philosopher Michel Foucault to various fields. I am a person who wants to give meaning to philosophy not as a simple theory or concept but as something that should be applied and changed in various places of humans and our society. To this end I have collected the articles I have written in the past 5 or 6 years. In 2017 I worked as an intern at the ICCS Research Institute of Taiwan Chiao Tung University for a short time and since then I have posted articles titled Cultural Government of the Samjiyeon Orchestra in North Korea and Crash Landing on abnormality a short essay on the Korean drama Crash Landing on You on the ICCS site. Also during the COVID 19 period I posted articles titled Juche and Shaking Korea in the time of Coronavirus in French on the French site *ici et ailleurs*. After that in 2024 Plant Collection of missionary Emile Taquet and Eurocentrism was published in French on the same site. These three articles in French were translated into English and collected together in this book. The remaining two articles about Programming of liberalism in the film Parasite and about the Korean painter Pen Varlen in Russia were written when I gave lectures and made presentations in Korea. Through these articles I hope to easily approach readers by applying Michel Foucault's theories which were somewhat difficult to various fields. And I hope that they will help readers to suggest directions for their lives and serve as a practical echo. **A**
