Challenging Capital Punishment Legal And Social Science Approaches:

Challenging Capital Punishment Kenneth C. Haas, James A. Inciardi, 1988-09 In Challenging Capital Punishment Haas and Inciardi reveal the persistence of myth and misinformation in the death penalty debate They suggest that the debate needs to be based on scholarly analysis and scientific scrutiny They therefore bring together social scientists and legal scholars who assess the validity of objections to the death penalty

Challenging Capital Punishment Kenneth C. Haas, James A. Inciardi, After years of controversy the death penalty debate remains both urgent and unresolved presenting legal moral ethical and philosophical challenges According to the editors of Challenging Capital Punishment one of the most striking aspects of this debate is the persistence of myth and misinformation about capital punishment Haas and Inciardi suggest that the debate needs to be conducted on the basis of scholarly analysis and scientific scrutiny Accordingly their volume brings together an impressive list of leading social scientists and legal scholars who assess the validity of objections to the death penalty

Questioning Capital Punishment James R. Acker, 2014-06-13 The death penalty has inspired controversy for centuries Raising questions regarding capital punishment rather than answering them Questioning Capital Punishment offers the footing needed to allow for more informed consideration and analysis of these controversies Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical empirical and normative perspectives about death penalty policies and practices This book is ideal for upper level undergraduate and graduate classes in criminal justice

Mental Disability and the Death Penalty Michael L. Perlin, 2013-01-17 Michael Perlin shows how the administration of the death penalty deprives persons with mental disabilities of their constitutional rights and how trial courts and prosecutors consciously flaunt the law Using real life examples he brings this often overlooked situation to light and calls for immediate change

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone

researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes

DeathQuest Robert M. Bohm, 2016-11-10 This fifth edition of the first true textbook on the death penalty engages the reader with a full account of the arguments and issues surrounding capital punishment The book begins with the history of the death penalty from colonial to modern times and then examines the moral and legal arguments for and against capital punishment It also provides an overview of major Supreme Court decisions and describes the legal process behind the death penalty In addressing these issues the author reviews recent developments in death penalty law and procedure including ramifications of newer case law such as that regarding using lethal injection as a method of execution The author's motivation has been to understand what motivates the deathquest of the American people leading a large percentage of the public to support the death penalty The book educates readers so that whatever their death penalty positions are they are informed opinions

Social Science in Law John Monahan, Laurens Walker, 1998 The Fourth Edition of Monahan Walker's *Social Science in Law* Thoroughly incorporates *Daubert v Merrill Dow Pharmaceuticals Inc* the United States Supreme Court's landmark decision on scientific evidence Features expanded in depth treatment of the growing use of survey methods to establish damages in mass tort cases Integrates the latest Web site addresses to aid in further social science legal research

Courts Cassia Spohn, Craig Hemmens, 2011-11-09 Authored text sections and carefully selected accompanying readings that illustrate the questions and controversies legal scholars and court researchers are investigating in the 21st century Edited readings introduce students to classic studies of the criminal court system and to cutting edge research on decision making by court actors An introduction to each reading gives students an overview of the purpose main points and conclusion of each article and evaluates their policy implications How to Read a Research Article tied to the first reading in the book guides students in understanding and learning from the research articles Mini chapters precede the selection of readings and offer clear and concise explanations of key terms and concepts in each section coupled with boxes with special interest topics and review materials that enhance student comprehension
