Changing Conversations in Organizations Patricia Shaw, 2002 Focusing on the essential uncertainty of participating in evolving events as they happen this book considers the creative possibilities of such participation from a complexity perspective *Changing Conversations in Organizations* Dr Patricia Shaw, 2003-09-02 Drawing on the theoretical foundations laid out in earlier volumes of this series this book describes an approach to organizational change and development that is informed by a complexity perspective It clarifies the experience of being in the midst of change Unlike many books that presume clarity of foresight or hindsight the author focuses on the essential uncertainty of participating in evolving events as they happen and considers the creative possibilities of such participation Most methodologies for organizational change are firmly rooted in systems thinking as are many approaches to process consultation and facilitation This book questions the suggestion that we can choose and design new futures for our organizations in the way we often hope Avoiding the widely favoured use of two by two matrices idealized schemas and simplified typologies that characterize much of the management literature on change this book encourages the reader to live in the immediate paradoxes and complexities of organizational life where we must act with intention into the unknowable The author uses detailed reflective narrative to evoke and elaborate on the experience of participating in the conversational processes of human organizing It

asserts that possibilities are perpetually sustained and changed by the conversational life of organizations This book will be valuable to consultants managers and leaders indeed all those who are dissatisfied with idealized models of change and are searching for ways to develop an effective change practice *Life-Changing Conversations* Sarah Rozenthuler,2013-05 Talk is our key action tool for moving forward at work and in our personal life yet how often do we feel we've missed crucial opportunities or failed in our communication This book explains why effective talk can be truly transformative and provides a practical guide to having the kinds of conversations that will turn your life around Expert psychologist and coach Sarah Rozenthuler provides the seven keys to success calling up your courage focusing on your intention creating positive space speaking your truth having a flexible style cultivating constructive controversy and obtaining closure Throughout the book you will find real life examples of problem situations including negotiating with difficult neighbours asking for a raise and ending a long term relationship The author shows through extended sample dialogue how in each case a difficult situation was worked through and a positive result achieved *Changing Conversations in Organizations* Dr Patricia Shaw,2003-09-02 Focusing on the essential uncertainty of participating in evolving events as they happen this book considers the creative possibilities of such participation from a complexity perspective **Changing the Sales Conversation: Connect, Collaborate, and Close** Linda Richardson,2013-12-27 The proven new sales strategy from New York Times bestselling author Linda Richardson Learn how to create better more effective dialogs with customers in today's hyper digital world In this era of iPads iPhones and apps sales communications may be growing but sales conversations are dying and so are too many sales The New Sales Conversation helps you use new links and technologies without losing the very reason for making a connection in the first place a chance to exchange the winning words that lead to a successful close and a loyal customer Richardson Provides five easy to remember keys to bringing value to customers Futuring Predictive Preparation Heat mapping New and Emerging Needs Value tracking Proof of Solution Phasing Verifiable Outcomes and Linking Emotional Connection Linda Richardson is the founder and Executive Chairwoman of Richardson a global sales training business She teaches sales and management courses at the Wharton Graduate School of the University of Pennsylvania and the Wharton Executive Development Center *Life Changing Conversations* David Trotter,2023 *Crucial Conversations Skills* Kerry Patterson,Joseph Grenny,Ron McMillan,Al Switzler,2011-11-18 How Do You Communicate When the Stakes Are High Learn how with these TWO GROUNDBREAKING BOOKS in ONE eBook PACKAGE In any organization the best laid plans boil down to one simple thing how well we come together to bring them to fruition But more often than not we end up dealing with people who come across as disagreeable stubborn or even obstructive And emotions flare up The only way to get things done is to step up to the plate by stepping back from our emotions Written by a team of experts from the world renowned training firm VitalSmarts these two books provide the skills you need to make every interaction fruitful and productive in even the most emotional situations eBook package includes CRUCIAL CONVERSATIONS The New York Times

Anna Sale and her podcast guests have direct and thought provoking conversations discussing topics that most of us are too squeamish, polite, or nervous to bring up. But Sale argues that we all experience these hard things and by not talking to one another we cut ourselves off, leading us to feel isolated and disconnected from the people who can help us most. In this book, Sale uses the best of what she's learned from her podcast to reveal that when we have the courage to talk about hard things, we learn about ourselves, others, and the world that we make together. Diving into five of the most fraught conversation topics, she moves between memoir snapshots of a variety of Americans opening up about their lives and expert opinions to show why having tough conversations is important and how to do them in a thoughtful and generous way.
